Figure 3: Age Distribution of LADCs in Nebraska

Age group	2020 source	2024 chart label	2025 source	2025 count
26-35	3.00%	7.00%	6.45%	39
36-45	30.00%	26.00%	27.93%	169
46-55	24.00%	31.00%	29.92%	181
56-65	23.00%	23.00%	21.32%	129
≥ 66	14.00%	13.00%	14.38%	87

Source: BHECN 2025 Behavioral Health Workforce Data Snapshots, LADC Age worksheet.

Data verification: The 2024 percentages are published chart labels because the source Age worksheet contains no 2024 series. The 2020 source workbook lists 3% for ages 26–35, whereas the chart labels that group 9%. The 2020 source percentages total 94%. Values are not adjusted or normalized.

PDF percentages are displayed to two decimal places. Excel retains the original precision of spreadsheet-sourced values.
