

**DIAGNOSTIC RADIOLOGY RESIDENCY
DEPARTMENT OF RADIOLOGY
UNIVERSITY OF NEBRASKA MEDICAL CENTER
OMAHA, NEBRASKA**

Program:

This fully accredited residency program in Diagnostic Radiology is designed to train physicians in all facets of diagnostic radiology and nuclear medicine. We offer a four-year residency in diagnostic radiology. Five (5) PGY II Diagnostic Radiology Residency positions are offered annually through the National Residency Matching Program. The program is approved for a total of 20 residents.

Training is subspecialty oriented with resident rotations in gastrointestinal, genitourinary, musculoskeletal, pediatric and chest radiology, mammography, computed tomography, ultrasound, nuclear medicine, neuroradiology, cardiovascular and interventional radiology.

Each week, about seven hour-long conferences are held with a careful blend of didactic teaching and case conferences. Graduate courses are offered in Radiation Biology and Radiation Physics. All conferences are held in the radiology department conference facility and all residents are required to attend. Faculty at the University Hospital and the Omaha Veterans Administration Hospital provide coverage for the clinical services during conferences. Residents are involved in medical student teaching and are encouraged to participate in research projects.

There is an active visiting professor program with numerous national authorities in radiology participating. All residents attend a six-week course in radiologic-pathologic correlation at the Armed Forces Institute of Pathology, in Washington, D.C., during their residency. The Department of Radiology maintains a two-bedroom apartment in Washington, D.C., for the residents' use while at this course.

Facilities:

The University of Nebraska Medical Center is located on a 45 acre campus in Omaha and serves as a modern clinical teaching center for the College of Medicine, College of Pharmacy, School of Nursing and other educational programs in the health sciences. With 398 inpatient beds and extensive outpatient facilities, the Medical Center is a compact, efficient referral hospital serving patients throughout the State and region. UNMC provides a full range of patient care including liver, pancreas and bone marrow transplantation. Almost every area of the Medical Center is engaged in clinical or basic science investigation. The Library of Medicine has over 200,000 books and 3,000 journals. It is headquarters for the Mid-Continental Regional Library covering seven states and is affiliated with the National Library of Medicine.

The Department of Radiology at the University of Nebraska Medical Center encompasses approximately 50,000 square feet and utilizes state-of-the-art equipment in diagnostic radiology, angiography, ultrasound, computed tomography, magnetic resonance imaging, and nuclear medicine.

The Omaha Veterans Administration Hospital is an affiliate 408 bed hospital located one-half mile from the University of Nebraska Medical Center campus. The Radiology Department is a modern facility with excellent angiography, computed tomography, ultrasound and fluoroscopic equipment. Residents spend a total of nine months at the Veterans Administration Hospital during their four year residency. The total procedure volume for both institutions is over 135,000 examinations per year with excellent experience in all subspecialty areas of radiology.

In 1990, a one-month rotation in pediatric radiology was established at Children's Hospital. This rotation compliments the pediatric radiology experience at the University Hospital.

The faculty at the University of Nebraska Medical Center is totally integrated between the University Hospital and Outpatient Care Center and the Omaha Veterans Administration Hospital. All faculty are certified by the American Board of Radiology or the American Board of Nuclear Medicine. A list of our faculty is attached.

The University of Nebraska Medical Center has merged with Bishop Clarkson Memorial Hospital. A connector extends between the 1st floors of both institutions. The merger agreement called for a unified group of radiologist and a single radiology department. This has resulted in an increase of approximately five staff radiologists and 50,000 exams.

Community:

Metropolitan Omaha has approximately 600,000 people, excellent schools, numerous universities and colleges, live theater, opera, a symphony orchestra and ample sports activities. All are accessible at modest cost. The Joslyn Art Museum and the New Cultural Center for the Performing Arts are outstanding. Ethnic restaurants are abundant. Omaha is strategically located within a day's drive or an hour's flight to Denver, Minneapolis, or Chicago.

Appointments:

There are 20 resident positions in diagnostic radiology and fellowship positions are offered in musculoskeletal radiology, body imaging, and vascular/interventional radiology. Graduate programs for M.S. and Ph.D. degrees are also available.

All residents receive four weeks paid vacation per year, malpractice insurance, laboratory coats, and \$625/year for books, journals and meetings. Comprehensive group health insurance and other medical benefits are provided at reduced rates. All residents attend Nebraska Radiological Society Meetings at which residents hear national authorities in diagnostic radiology.

Application:

Applications are accepted thru the Electronic Residency Application Service. Appointments begin on July 1st.

Craig W. Walker, M.D.
Howard B. Hunt Centennial Professor & Chairman

Faculty:

Craig W. Walker, M.D., Professor and Chairman of Radiology, Musculoskeletal Radiology
Joseph C. Anderson, M.D., Professor and Vice Chairman of Radiology, Body Imaging
Anthony B. Adelson, M.D., Assistant Professor, Interventional Radiology
Sandra Alberry, M.D., Clinical Assistant Professor of Radiology, Children's Hospital, Pediatric Radiology
Michael D. Boska, Ph.D., Associate Professor of Radiology, Radiation Physics
Udaya Chintalapudi, M.D., Assistant Professor, Special Procedures
Glenn V. Dalrymple, M.D., Clinical Professor of Radiology, Nuclear Medicine
Mary Kay Drake, M.D., Assistant Professor, Musculoskeletal Radiology, Associate Program Director
Annabel Galva, M.D., Assistant Professor, Body Imaging
Candace G. Grier, M.D., Assistant Professor of Radiology, Body Imaging
Jud W. Gurney, M.D., Professor of Radiology, Chest Radiology
Francis J. Hahn, M.D., Professor of Radiology, Neuroradiology
Jordan H. Hankins, M.D., Professor of Radiology, Nuclear Medicine
Katherine Holdeman, M.D., Assistant Professor, Nuclear Medicine
Anne Hubbard, M.D., Associate Professor, Pediatric Radiology
Thomas J. Imray, M.D., Professor of Radiology, Genitourinary Radiology, Thoracic Radiology
Sushama Kunnathil, M.D., Assistant Professor, Interventional Radiology
Debra M. Lyddon, M.D., Assistant Professor of Radiology, Body Imaging
Timothy E. Moore, M.B., Ch.B., F.R.A.C.R., Professor of Radiology, Musculoskeletal Radiology
Charles H. Morris, M.D., Associate Professor of Radiology, General Radiology
Donald F. Orton, M.D., Associate Professor of Radiology, Service Chief of OVAMC, General Radiology
Marcie H. Peterson, M.D., Assistant Professor of Radiology, Body Imaging
David P. Poage, M.D., Assistant Professor of Radiology, Body Imaging, Neuroradiology
Subbaraya Ramaprasad, Ph.D., Assistant Professor of Radiology, Radiation Physics
Jean A. Saigh, M.D., Associate Professor of Radiology, General Radiology
Bruce A. Schroeder, M.D., Clinical Assistant Professor of Radiology, Children's Hospital, Pediatric Radiology
Dick Slater, M.D., Associate Professor of Radiology, Interventional Radiology
Michaela L. Tilgner, M.D., Assistant Professor of Radiology, General Radiology
Matt White, M.D., Assistant Professor, Neuroradiology
Cheryl A. Williams, M.D., Associate Professor of Radiology, Mammography

RESIDENTS:

NAME	YEAR	MEDICAL SCHOOL
Robert Berg, M.D.	4	University of Minnesota Medical School
Lisa Niebergall, M.D.	4	Creighton University School of Medicine
Jennifer Oliveto, M.D.	4	Creighton University School of Medicine
Jean Petree, M.D.	4	University of Nebraska Medical Center
Kristofer Vanderzwaag, M.D.	4	University of Iowa College of Medicine
Jon Anderson, M.D.	3	University of Texas Medical School at Houston
Will Eidsness, M.D. *	3	University of South Dakota School of Medicine
Christopher Roach, M.D. *	3	Ohio State University College of Medicine
Temple Rucker, M.D.	3	University of Nebraska Medical Center
Eric Vanderwoude, M.D.	3	University of Nebraska Medical Center
Matt Devries, M.D.	2	University of Nebraska Medical Center
Lucy Muinov, M.D.	2	University of Nebraska Medical Center
Doug Niemann, M.D.	2	University of Nebraska Medical Center
Lisa Wheelock, M.D.	2	Creighton University School of Medicine
Dan Zelen, M.D.	2	North Dakota School of Medicine
Melissa Bischoff, M.D.	1	St. Louis University Health Sciences Center
David Knight, M.D.	1	St. Louis University Health Sciences Center
George Knight, M.D.	1	University of Washington School of Medicine
David Penn, M.D.	1	University of Nebraska Medical Center
Hugh Smith, M.D.	1	University of North Dakota School of Medicine

*Co-Chief Residents

NUCLEAR MEDICINE

Shrinivas Bishu, M.D.	3	University of Nebraska Medical Center
Terri Love, M.D.	2	University of Nebraska Medical Center

FELLOWS

Nicholas Moore, M.D.	5	University of Vermont
Travis Petree, M.D.	5	University of Nebraska Medical Center
Fareed Quraishi, M.D.	5	University of Texas Medical School in Galveston
