

Our testing platform we use at the University of Nebraska Medical Center Clinical Perfusion Education program will help you gain confidence and skill in your abilities as you prepare for your coming exams.

Our program will give you 9 unique opportunities to take an on-line exam. Each exam will utilize a different data set, so you'll have unique questions associated with each test. The practice process will be good for you as will thinking about the questions as they come to you.

Each exam has a different "time." At the end of the period, you are asked to end the exam, but it will NOT forcefully terminate you. You must end it so that you can view your grades. If not, you will not be able to.

If you have any technical problems with the process, feel free to shoot myself and email (dwholt@unmc.edu) or Cindy(cskarda@unmc.edu) and we'll do our best to deal with it.

REGISTRATION FORM

Good luck...relax...take it as a learning experience...ENJOY the journey!
