

Our unique and first in the world, Cooperative Care for Transplant Patients

- Pairs the patient and care partner (a family member or a friend) with physicians, nurses, nutritionist and pharmacists to provide comprehensive patient care, education and support
- Care partners attend specialized educational classes to help them assist the patient with medications, monitoring health changes, and providing emotional support
- Participation contributes to more accurate diagnosis, more effective treatments, successful outcomes and faster recoveries
- Has proven to generate greater patient satisfaction
- Lower healthcare costs

Lied Transplant Center - Patient and Family Suits

Our traditional in-patient unit, where some patients choose or need to stay, is also staffed with members of our specially trained transplant team. Dedicated physicians and nurses care for our patients at both our centers, providing a nurturing environment with compassion and respect. We were voted the Number One employer in Omaha, Nebraska.

Amenities

While staying at The Lied Transplant Center you will be treated to hotel-style service and amenities. Whether you are a Cooperative Care patient or visiting for a follow-up appointment, The Lied Transplant Center is here to meet your every need and make your stay as comfortable as possible.

Cooperative Care and Nebraska House Rooms

Rooms at the Lied Transplant Center are designed to combine medical functions with comfort and privacy. They contain comfortable furnishings, abundant storage space and adjustable lighting. Suites are available with separate sleeping and living areas, a kitchenette, private bathroom and a home-like environment which all help you and your health-care providers to focus on your care and recovery.

Patient Resource Center

The Patient Resource Center is an education area for patients and their families or friends. The room is supplied with the most current medical information, in addition to books, magazines and videos for leisure reading and entertainment. The room also contains computer terminals with Internet and e-mail access, fax machine, copier, CDs, games and more.

Exercise Room

The exercise room is available for everyone staying in the Lied Transplant Center. It provides patients the opportunity to regain strength while allowing care partners and guests the opportunity to work out while away from home. The room is equipped with

stationary bicycles, a Stairmaster and a treadmill. Instructional videos and booklets on equipment usage are available.

Play Rooms

The play rooms, filled with toys, games and videos are magical get-away for children

Laundry Facilities

Washers and dryers are located on the fourth through the seventh floors of the center. There is no charge for the machines and each laundry room has vending machines that dispense detergent and fabric softener. The Lied Transplant Center also has dry-cleaning and laundry services available. Each Cooperative Care room contains a laundry bag and dry cleaning form. Visitors may place their items in the bag and take it to the concierge desk.

The Healing Gardens

The healing Gardens are a beautifully landscaped outdoor area that gives you a quiet get-away for reflection and conversation. Cancer and transplant patients and others undergoing lengthy treatment for serious illness often need a place away from the clinical environment of their treatment.

The Healing Gardens are based on the principle that interaction with nature produces psychological and emotional effects that enhance physical healing and emotional well being.

Parking

Parking for guests and visitors is located in the visitor parking structure next to the Durham Outpatient Center. Patient drop-off and pick up can be done in the circle drive in front of The Lied Transplant Center.
