

**PULMONARY AND CRITICAL CARE MEDICINE FELLOWSHIP PROGRAM  
FELLOWS WEEKEND CALL POLICY**

A. UNMC Fellow Weekend call

1. If there is no consult service resident on for the weekend, the fellow on call for the day should see the consult service patients prior to the start of rounds.
2. If a bronchoscopy needs to be done, it is the fellow's responsibility to call the tech. If a consult is called to the resident, the resident should call the fellow after an initial evaluation and the fellow should see the patient and call the attending.
3. All changes in the call schedule must first be approved by the attending on-call for the weekend in question. Responsibilities of the fellow will reflect the service the attending staffs during the week.

B. VAMC Fellows Weekend Call

1. The fellow covering the VA will take call according to the VA call schedule. The fellow cannot take call for the VA on a night he or she is covering the UNMC service.
2. All call is at-home telephone call but the person on call would be expected to come in to the hospital for urgent consults or problems.
3. The fellow on Pulmonary Consults should arrange for the resident on the service to be first call for overnight consults at least 1/3 to 1/2 of the nights they are on the rotation.
