

## Quarterly Report

April 6, 2007

Submitted by Marie Reidelbach, McGoogan Library of Medicine,  
University of Nebraska Medical Center, Omaha, NE

### Current primary staff and their roles

- No changes to report at this time

### Major changes or additions made to the database

- Reached over 5000 approved records
- Indexing roughly 700 additional clinics scattered throughout the state

### Outreach and promotion efforts

- Exhibited at the Black Family Wellness Association Health Fair – March 31. Roughly 500 citizens of all ages attended.
- Exhibited at the Blair Community Health Fair – March 26. 300 citizens from Blair and surrounding communities were in attendance.
- Presented two sessions on Go Local Nebraska to the Northeast Library System on February 6 in Norfolk. The morning session included 16 library staff and 1 library trustee; the afternoon session included 18 library staff and 2 library trustees. The CHIRS program and the Go Local Nebraska project were covered in each hour-long class, with live demonstrations of Go Local Nebraska resulting in enthusiastic praise from the students.
- Posters and brochures for the Go Local project are being revised with a new look. The Go Local Nebraska website (<http://www.unmc.edu/library/golocal/>) will eventually link to the new promotional materials.
- Received \$11,000 from the Nebraska Library Commission to train selected public librarians across the state to become Go Local selectors. Also using the dollars to fund travel statewide to promote Go Local Nebraska. Each public library visited will receive a promotional poster, brochures, and baseball cards to promote the Go Local and CHIRS service.
- Created a blog for Go Local linked from <http://golocalne.blogspot.com/>. The blog is primarily used to communicate with the Advisory Committee as well as others about changes with the Go Local project.
- Traveling display on Go Local and CHIRS was sent to the following libraries during this quarter:  
*January 2007- Norfolk Public Library*  
*March 2007- Alliance Public Library*

### User feedback received

- Positive verbal comments continue to be received as the database encompasses more of the services and providers across the state.
