

Dr.'s Dmitry Oleynikov, Corrigan McBride and Matthew Goede are NMC's (Nebraska Medical Center) team of expert MIS (Minimally Invasive Surgery) surgeons. This team performs multiple [MIS surgeries](#). Their expertise lies in the abdominal region of the body. All three of our doctor's not only have years of experience, but they have the experience that comes with the completion of Laparoscopic and Bariatric Fellowship Training programs.

UNMC (University of Nebraska Medical Center) is proud to offer a competitive Advanced MIS [Fellowship program](#). This fellowship program has 2 clinical positions and 1 research position open each year.
