Introduction

We are pleased to provide you with the seventh edition of the **Nebraska Health Information Project Data Book**. The Nebraska Health Information Project is a joint effort of the Nebraska Health and Human Services System and the University of Nebraska Medical Center. The Data Book is a companion to a series of publications produced by the Nebraska Health Information Project, the most recent of which are listed below. These and other publications are available to the public free of charge via the Internet. For more information visit online at: <http://www.unmc.edu/nebraska>.

Volume 6, Number 1. (May 2005)

Health Insurance Status of Nebraskans

Authors: Liyan Zu, Jane Meza, and Keith Mueller

This Data Reporter describes the health insurance status of Nebraskans using data from a 2004 household survey.

Volume 6, Number 2. (May 2005)

Making the Good Life Meaningful for all Nebraskans: The Importance of Health Insurance

Authors: Erin Carlson, Roslyn Fraser-Maginn, and Keith Mueller

This Data Reporter presents findings from data collected in 2004 that show the relationship between health insurance status and having access to needed health care services.
