

## ***BASIC SCIENCE RESEARCH OPPORTUNITIES***

- **James Eudy, Ph.D.**

E-mail: jdeudy@unmc.edu

Research Interests: DNA microarray analysis

- **Maurice Godfrey, Ph.D.**

E-mail: mgodfrey@unmc.edu

Research Interests: Connective tissue disorders

- **Shelley Smith, Ph.D.**

E-mail: ssmith@unmc.edu

Research Interests: Localization, identification, and phenotypic characterization of genes affecting clinical disorders, using linkage, SNP association, and mutation analyses.

Current Research: Quantitative gene analysis for language and cognitive disorders, and mutation analysis and genotype/phenotype correlations for cardiac arrhythmias.
