

Continuing Medical Education

Medicine is a life-long learning process. The Department of Pediatrics is committed to promoting learning for healthcare professionals. Therefore, we offer continuing medical education courses locally and participate in regional and national courses. Much of our continuing medical education credit is sponsored by [Children's Hospital and Medical Center](#), where weekly Pediatric Grand Rounds are delivered. These presentations are also archived on our website, which may be accessed using the menu option on this page.

If you have any questions about continuing medical education programs in the Department of Pediatrics, please contact:

- James L. Harper, M.D., Continuing Medical Education Director, (402) 559-7257
