

UNMC-CUMC-Children's Joint Pediatrics Residency Training Program

Thank you for your interest in the UNMC-CUMC-Children's Hospital Joint Pediatric Residency Training Program. We seek to provide to the residents an opportunity to develop a broad and comprehensive training in Pediatrics without emphasizing either tertiary care or primary care, rather providing our residents with ample exposure to both ends of the spectrum so that they finish our program prepared to follow their own career ambitions.

The Pediatrics Residency at the Creighton-Nebraska Universities Health Foundation is a fully accredited program (notification received October 17, 2006). We also have a fully accredited combined Internal Medicine/Pediatrics program with the University of Nebraska Medical Center.

Please feel free to contact the Pediatric Residency Program staff with any questions.

- John Walburn, M.D., Residency Program Director
- [Cindy Colpitts](#), Residency Program Coordinator, (402) 559-5380
- [Twyla Moore](#), Residency Program Assistant Coordinator, (402) 559-2423
