what we do

What's New

- **ACS Chemical Biology**—The New Interface of Chemistry and Biology
 - [Dr. Laura L. Kiessling, Editor-in-Chief](#)
 - [Information for Authors](#)
 - [Register now for ASAP/TOC Alerts](#)
- Celebrate Organic Chemistry in June with the **ACS Family of Organic Chemistry Journals**—The most significant journals in the field of Organic Chemistry.
- Now offering you an early look at research from **Biomarkers**—a special issue from *Journal of Proteome Research*.
- ACS Publications invites you to review a sampling of green chemistry research on the new **ACS Publications Green Chemistry** site.
- Issue 3 of the *Journal of Chemical Theory and Computation* publishes May 10.
- **Molecular Pharmaceutics** focuses on bio-available drugs and delivery systems—[submit your high quality manuscript](#) today!
- **Japanese Resource Website**: Valuable information for authors, researchers, and customers in Japan.
- **ACS Journal Archives** offers access to more than half a million articles! View a list of the [most-accessed articles](#) from the ACS Journal Archives in 2004.
- [Frequently Asked Questions](#) Regarding ACS Author-driven Initiatives.
- Review the program and register for ACS ProSpectives' conference on [Advances in Structure-Based Drug Discovery](#), October 17-19, 2005, in Philadelphia.

Hot Articles

- From **Molecular Pharmaceutics**
 - [Iron Oxide Nanoparticles for Sustained Delivery of Anticancer Agents](#)
- From **Biochemistry**
 - [Zn²⁺-Dependent Deoxyribozymes That Form Natural and Unnatural RNA Linkages](#)
 - [Probing the Influence of Stereoelectronic Effects on the Biophysical Properties of Oligonucleotides: Comprehensive Analysis of the RNA Affinity, Nuclease Resistance, and Crystal Structure of Ten 2'-O-Ribonucleic Acid Modifications](#)
- From **Chemical & Engineering News**
 - [C&EN Special Issue: Top Pharmaceuticals—A Look at Drugs That Changed Our World](#)
 - [House May Ask NIH To Limit PubChem](#)
- From **Organic Letters**
 - [Intramolecular Hydroamination of Unactivated Olefins with Ti\(NMe₂\)₄ as a Precatalyst](#)
