### Pediatric Grand Rounds

UNMC/Children's  
Pediatric  
Grand Rounds

The Pediatric Grand Rounds is sponsored by the UNMC - University of Nebraska Medical Center and Children's Memorial Hospital and features hour long programs highlighting various pediatric healthcare trends.

We are the leading source of pediatric continuing education in Nebraska and have provided online access to our CME event since 1998. Our presentations may be accessed in the form of streaming video or as an audio podcast. The scope of our Grand Rounds is to update physicians on the current issues facing pediatrics.

The schedule of Grand Rounds presentations, and the streaming video of the presentations are available online at [www.unmc.edu/Pediatrics/GrandRounds](http://www.unmc.edu/Pediatrics/GrandRounds). CME credit is available for physicians in Nebraska and the surrounding states through Children's Hospital. For information, email James Harper, MD([jlharper@unmc.edu](mailto:jlharper@unmc.edu)).
