Department of Environmental, Agricultural and Occupational Health**

2010 Fall Semester Seminar Series Kick-Off Event

ENV 970 – 1 credit hour

The Environmental Health, Occupational Health and Toxicology graduate program seminar series for the 2010 Fall semester will meet for the first time on Monday, August 30th. This seminar series is required for all students in the program and includes faculty and student seminars and a student journal club. At our first meeting on August 30th we will review the schedule and format for the seminar series and introduce our new and continuing students. Department faculty and student advisors are urged to attend. This will be an opportunity to meet the incoming students and interact with current students and faculty.

Please plan to join us as we welcome our new students and kick-off the

2010 Fall semester!

Time: 4:00 – 5:00 pm

Location: UNMC MSC Room 2018

Broadcast Location: UNL East Campus

Hardin Hall, Room 901
