

A-1

Largest Telecommunication Connection In Service – December, 2000

Source: State of Nebraska Division of Communications
Telecommunications Infrastructure Needs Assessment
<http://www.dca.state.ne.us/doc/tina/bandwidth.htm> 1/20/00

Note: As a portion of the TINA evaluation, the State of Nebraska has compiled this inventory of the status of the current network. However, this is an on-going work in progress. It should be noted that the information contained in this inventory is self-reported. Neither the State of Nebraska nor the Division of Communications is certifying that this is a complete and accurate assessment of the total telecommunications inventory in Nebraska.

Largest Connection per Place

- 43M (DSL) - 100M bps (fiber optic)
- 1.5M (T-1) - 10M bps
- 56K - 64K bps (phone lines)
- ✚ Nebraska Hospitals

0 50 100 Miles
