

UNIVERSITY OF NEBRASKA SYSTEM

STAY ENGAGED WITH YOUR UNIVERSITY AND MAKE A DIFFERENCE.

1 Sign up to be a University of Nebraska Advocate.

We'll keep you updated on our legislative priorities and let you know how you can make your voice heard with policymakers. NU Advocates are among the first to know about legislative developments that impact us, and they're on the front lines in sharing stories of how the University touches their lives and communities. Join the team at nebraska.edu/advocates.

2 Get to know your state legislators.

Emails and phone calls are effective ways to reach state senators. If you don't know who your state senator is, we've made it easy to find him or her—and easy to call or send an email to them. Just use our Find Your Senator tool at nebraska.edu/contactyoursenator. If you're not able to speak directly to your senator, you can talk to a staff member or leave a message.

3 Stay informed with the latest news from the University online and on social media.

To stay up to date, visit nebraska.edu/news and follow us at @u_nebraska on Twitter, @unebraska on Facebook and "University of Nebraska System" on LinkedIn.

4 Share your story.

We love hearing stories about how the university has made a difference in your life. It shows the vital role higher education plays across Nebraska—in workforce and economic development, healthcare, agriculture and much more. If the university has impacted your life, please share your story with us on social media using #NUforNE and with your state senator at nebraska.edu/contactyoursenator.

5 Help us tell our story.

Share content that shows the university's impact on Nebraska to help others stay informed, too. Don't forget to use #NUforNE! And, you can share the following facts with your friends, family and people in your community:

- ▶ The University of Nebraska enrolls nearly 50,000 students and produces 11,000 graduates each year for the state's workforce.
- ▶ The University is a \$6.4 billion annual economic engine for the state of Nebraska.
- ▶ The University is a world leader in cancer research and care, research in agriculture and water to feed a growing global population, and research to keep our men and women in uniform safe.

▶▶▶ **STAY IN TOUCH:** To learn more about any of the ways to advocate listed above, or for questions:
