Bootcamp drew rave reviews

"It was great to work on a real-world problem relevant to our campus."

"I enjoyed not only learning about this process for creativity, but having a chance to try it (do it!) in the real world."

"I enjoyed the challenge of trying to identify a problem and develop a strategy to solve it."

"I loved learning this new process of idea and innovation thinking and creation."

"Tackling a real challenge with a diverse group of individuals across many disciplines was what I liked the most. It allowed me to expand my ideas. I also loved the active nature of the project."
