Pictured above is the UNMC High School Alliance Class of 2018. Pictured below are students who spent an afternoon with the therapy dogs that were on campus at the beginning of the spring semester.

## Year Eight Was Great!

We are almost finished with year eight of the UNMC High School Alliance program. As some of you know, we started this journey in the 2010-2011 school year and have been growing ever since. We had 32 students that first year and now with the addition of our stellar seniors, we have over 70 students in the program. We had four classes and now we have 10.

As we conclude year eight, we have to look ahead to 2018-2019. Next year you will see us with six class offerings in the fall semester and six class offerings in the spring semester. We are going to bring back a class for next year and add a brand new one. More on that in our Fall 2018 newsletter next October.

I am looking forward to the 2018-2019 school year and seeing our alumni return to campus to begin their professional school careers and meeting the new students who want to be a part of this program.

I want to thank everyone who makes this program what it is. The Sherwood Foundation, the Omaha Public Schools, all of our participating school districts, the UNMC faculty, the UNMC staff and professional students; Nebraska Medicine, and of course all of the students who come to class everyday ready and willing to learn about healthcare and all of the different careers they can pursue.

Have a great summer everyone. We will be back in August 2018! -- *Heidi*

Pictured above on the left: Genesis Obando (Council Bluffs TJ) and Audrey Bavari (Omaha Burke) practice compounding techniques with frosting. Pictured on the right are the pharmacy class students who learned techniques to fill medicine in IV bags in the pharmacy lab.

## Pharmacy

For the third year, Dr. Christopher Shaffer led the Introduction to Pharmacy course. Within this course, students were exposed to the different aspects that make up the role of a pharmacist. They were also given the opportunity to learn the role pharmacists play as part of a medical team when caring for patients.

Dr. Shaffer invited 10 Pharmacy students, ranging from 2<sup>nd</sup> to 4<sup>th</sup> year, to present specific concepts to the students through lectures and activities. Dr. Shaffer's tag-line "Better living through Chemistry" guided instruction. Students were introduced to multiple concepts including: pharmacognosy, drug discovery, drug formulation, pathophysiology of cardiovascular disease, anti-cholesterol pharmacology and therapeutics, and personalized medicine.

Through lectures and hands-on activities, students gained an understanding that the role of a pharmacist goes well beyond just being able to count by 5's. Students were given the opportunity to learn about drug development from Dr. Martin Conda Sheridan and Dr. Corey Hopkins, and spend a day in their labs seeing first-hand the process of developing new drug therapies. Student were also able to utilize the model pharmacy to try their hands at creating IV bags for 'medication' distribution.

Dr. Patrick Fuller with Nebraska Medicine provided the students the opportunity to shadow different pharmacist, from varying specialties, within the hospital. Spending the class time with the pharmacist, and seeing the different professionals that the pharmacist interacted with, really connected the students to the concept that the role of a pharmacist is changing, with one student saying "my biggest take away was learning the wide range of roles a pharmacist plays in clinical care and how they make rounds with the other specialists, rather than being a second party that's reported to, pharmacists are making decisions for patients and they help determine different treatments."

## Behavioral Health

Intro to Behavioral Health: Concepts and Career from Family Therapy to Forensic Psychiatry was led by Dr. Kristen Hembree. Two doctoral student interns, Christian Klepper and Patty Nuhfer, joined Dr. Hembree in presenting content and leading activities.

Students have been fortunate to hear from behavioral health researchers and clinicians, who talk about not only their field of expertise and practice, but also their educational background and career path. During our class time, students completed an eight-hour certification course in Youth Mental Health First Aid. Each student successfully completed the course and the exam and now carry the certification.

Throughout the semester, students developed mini-lessons to give their peers a bit of background information before a guest speaker or field trip went deeper into a subject. It was nice to see how many of the high school students have natural teaching ability.

A highlight of semester was visiting Project Harmony, as well as Quality Living, Inc. While the mission of each is vastly different, behavioral health clinicians play a key role in caring for some of the most vulnerable members of our community. We are so fortunate to have both agencies in Omaha and we appreciate them opening their doors to the High School Alliance students.

## HOSA – Future Health Professionals

Nebraska Medicine and UNMC hosted the annual state leadership conference for HOSA – Future Health Professionals on March 19-20, 2018. The UNMC chapter won medals in 13 different events and qualified for the international conference in Dallas, Texas which will be held the last week of June 2018.

Thank you to all of the students who participated and congratulations to all of the medal winners including our students who competed with their home high school HOSA chapters and our alumni.

Good luck and have fun in Dallas!

### Important Dates

**May 15: Last day for Seniors**

**May 24: Recognition Day at 1:30 pm in the Truhlsen Events Center of the Michael Sorrell Building**

**May 25: Last day for Juniors and the last day of the year**

### Important UNMC

#### Events

**July 21, 2018 – Alumni Reunion – SAVE THE DATE  
VooDoo Taco at Aksarben Village**

Keyla Deal (Council Bluffs TJ) and Emily Kokesh (Papillion LaVista South) practice living anatomy in the gross anatomy lab bone room.

Corrina Cramer (Millard West), Alyssa Lawrence (Omaha Central), Kristin Pivonka (Millard South) and Haile Bartlett (Ralston) find their illium (hip bone) in the anatomy class.

## Anatomy

This year marks the eight year of the HSA Anatomy course and for the first time the class was supported by numerous Masters of Anatomy students. Masters students were able to provide insight during specimen exploration and examinations. The Masters students were also available to help answer questions during open review times.

Thirty-six High School Alliance students were enrolled in the Anatomy course this spring. Drs. Simet and McCumber, faculty in the Genetics, Cell Biology, and Anatomy Department, completed their second year as co-leads for the course. Dr. Binhammer, a veteran within the department, also played a critical role in lectures and lab support. This year focused on both the upper and lower limbs, but also included materials on the cardiovascular, respiratory and GI systems. These new additions allowed for the students to expand their knowledge of all the different parts working as whole within the human body.

Dr. Simet and Dr. McCumber strengthened the discovery of the human body through hands-on activities and the use of the Complete Anatomy app. The students were able to use iPads on loan from the Genetics, Cell Biology, and Anatomy Department to complete many of the assignments from the course. They were also encouraged to use the iPads as a study tool to utilize the Complete Anatomy app, online resources, and materials found on Canvas. The students were presented the chance to complete the anatomy units threaded with gross anatomy, radiology, physiology, and living anatomy elements. The students had opportunities to take what they had learned during small group sessions and apply it to resistance training in the UNMC Student Life Center Gym.

## Study of Patient Care

Under the direction of Dr. Connie Miller, students have explored the many roles of nurses and other providers in today's healthcare environment. A constant thread throughout the semester was improving communication with patients and families.

Students learned from professionals in the fields of neonatal intensive care, trauma/flight nursing, speech language pathology, dietetics, athletic training and orthopaedics to name a few. Students discussed the impact of seizures, diabetes and stroke on the individual, the family and the community. One highlight of this semester was visiting the Madonna Rehabilitation Hospital-Omaha Campus. We not only had a presentation by Madonna staff, but were able to tour their amazing facility.

Students participated in a class with staff from the Nebraska Medicine orthopaedics clinic where they learned about a variety of traumas. The class included a lesson on how to apply a cast to the arm, and students had an opportunity to practice on a classmate. Needless to say, many photos were taken that afternoon!

The semester is ending with student presentations. Each small group is responsible for teaching their peers about working with special populations in a healthcare setting, as well as in the community. Students created an awareness campaign to go along with their teaching project and are hoping to help their peers and family learn more about the needs of members of our community.

Samantha Wood (Omaha Burke) learns how to take the blood pressure on Jon Paul (Omaha Central).

Htee Klee Paw (Omaha South) has her blood pressure taken by Sekina Yaseen (Omaha Central) in the Study of Patient Care class.

## Genetics

Claire Fettig (Bellevue East) and Amara Rodis (Millard West) review their gel plates in the Genetics class.

Joel Jacob (Millard North), Chase Jablon (Bellevue West) and Alexa Armentrout (Bennington) check their gel plates in the Genetics class.

The Genetics class was a challenge for its students this semester. However, with the expert help of Dr. Maurice Godfrey the students expanded their knowledge. Students completed simple Punnett squares determining the genotypes of offspring and traced inherited diseases through a pedigree. Students explored how genes can be linked and how often recombination events occur. Students also learned how to calculate the frequency of recombination events and how to map the location of genes on a chromosome.

Genetics students each submitted a saliva sample to the 23 and Me company. Results of the 23 and Me testing were used for ancestry analysis and discussion of ancestral origins.

Of course, with scientific knowledge there are ethical and societal implications. As students delved deeper into the procedures used to explore the human genome, discussions about why and if these procedures should be used arose. Students viewed the futuristic movie "GATTACA" and reflected on whether or not parents should be able to choose to take out genetic alleles for disease, or to choose phenotypic traits including; height, weight, eye or hair color. All Genetics students read DNA USA by Ryan Sykes. Sykes uses genetic markers to trace the ancient origin of different populations and speculates the migration patterns that lead to their modern locations. Each student also chose a novel to read that discussed different aspects of modern genetics and the role they play in today's society. Students wrote a book report based on their novel choice and reflected on the concepts presented and the influence they would have on them personally.

During the rest of the semester, students explored how DNA fingerprinting for identification and to solve crimes. Once students became experienced in running electrophoresis gels, students spliced DNA and inserted the resulting pieces into bacterial plasmids, which expressed a new phenotype. They glowed! Students were introduced to the use of genetically transformed bacteria as an intricate part of producing and delivering medication. Students also learned that while gene transformation can be used to transform the phenotypes of bacteria to make them glow or to produce human insulin and hormones, they can also be used by UNMC researchers in the quest to cure cancer.

## UNMC High School Alliance Alumni The Classes of 2011 · 2012 · 2013 · 2014 · 2015 · 2016 · 2017 and 2018

**Arlington:** Kimberlie Gaffney 2011; Brandon Keffer 2016; Hannah Thompson 2017.

**Bellevue East:** Stephanie Dinogan 2011; Alyssa Meyer 2011; Christine Blair 2012; Jake Herbert 2012; Zachary Stovall 2012; Ellen Brightweiser 2013; Ziomara Jurado 2013; Colin Milos 2013; Madelyn Wilson 2013; Alexis Reza 2014; Gabe Rollings 2014; Cierra Snaples 2014; Elizabeth Alexander 2015; Morgan Dillon 2015; Ashley Eastman 2015; Alexis Bennett 2016; Annie Gentes 2016; Raheen Jones 2016; Sandy Montoya 2016; Emma Hauenstein 2017, Claire Fettig, 2018, Hannah Traster 2018.

**Bellevue West:** Alexander Clarke; 2011; Lauren Garcia 2011; Leah Whitney 2011; Kevin Hanna 2012; Max Lydiatt 2013; Rebecca Sis 2013; Austin Stacey 2013; Justin Thorstad 2013; Alexa Aikens 2014; Conner Beyersdorf 2014; Courtney Smith 2014<sup>^</sup>; Taylor Webb 2014; Alexis Araujo 2015; Daniela Cortes 2015; Kelsi Smith 2015; Luke Diego Galvan 2016; Jayden Jensen 2016; Terese Navarra 2016; Allison Aden 2017, Brooklyn Larimore 2017, Amelia Rice 2017, Elias Smith 2017, Casia Dotzler 2018, Chase Jablon 2018, Heather Richard 2018, Asja Woodard 2018.

**Bennington:** Katie Schrum 2011; Ben Wichelt 2011; KyLee Mumma 2012; Sydney Salmon 2012; Mike Wilhelm 2013; Tyler Housh 2015; Kasee Jones 2015; Autum Breazile 2016; Grace Corrigan 2016+; Savannah Meads 2016; Chad Bowman 2017, Grace Matheny 2017, Alexa Armentrout 2018, Alexis Gutschow 2018.

**Council Bluffs Abraham Lincoln:** Henry Black 2011; Kelcie Huebner 2012; Natasha Konfrst 2012; Sarah Trant 2012; Riley Barton 2013; Jeremy Vogel 2013; Scott Brown 2014<sup>^</sup>; Hope Philbrick 2014; Jessica Valdez 2014; Daniel Cano-Pargas 2015; Patricia Harte-Maxwell 2015; Ahidee Zavala 2015; Amanda Coffman 2017, Madeline St. Clair 2017, Kayleana Cox Johnson 2018, Misa Kawamitsu 2018,

**Council Bluffs Thomas Jefferson:** Miranda Ethen 2011; Brianne Moore 2011; Kelsie (Skow) Snow 2011; Sarah Ingwersen 2013; Jaimie Granger 2014; Kateland Bryan 2015; Jorge Cisneros 2016; Candace Mayfield 2016, Keyla Deal 2018, Genesis Obando 2018.

**Douglas County West:** Leigha Peterson 2011; Katelyn Goeden 2012; Taylor Vencil 2013; Emily Kahlandt 2014; Madisen Clevenger 2015; Julissa Bakken 2016; Allissa Flynn 2016; Darienne Blair 2017, Kelly McEvoy 2018.

**Elkhorn High:** Emma Fanning 2017

**Elkhorn South:** Ella Hustad 2017, Ridhi Konijeti 2017, Jacob Owens 2017.

**Ft. Calhoun:** Killian Roehr 2016.

**Gretna:** Caleb Guern 2011; Emma Connelley 2012; Adrian Dammermann 2012; Elise Gahan 2013; Kristen Kuhn 2013; Sabrina Montemarano 2013; Rachel Smith 2014; Robert Anderson 2015; Allison Bartenhagen 2015; Macenzie Christensen 2015; Ellen Karloff 2015; Morgan Daffer 2016+; CaRyn Christensen 2017, Gabriella Moore 2017, Bailey Troutt 2017, Lindsey Roberg 2018, Grace Sullivan 2018.

**Louisville:** Madalyn McFarland 2012.

**Millard North:** Andrea Bierman 2012; Kim Duong 2012; Bailey Finn 2012; Jessica Powers 2012; Lynn Chi 2013; Athira Jayan 2013; Marisa Varghese 2013; Jennifer Falcon 2014; Miranda Schilling 2014; Anna Spethman 2014; Kaitlin Bierman 2015; Tanmayee Chengalasetty 2015; Aysha Hussain 2015; Bailey Payne 2015; Natalie Torrez 2015; Alair Vega 2015; Haya Abdel-Jabbar 2017, Cierra Lampman 2017, Madelyn Mann 2017, Rizwan Siddiqui 2017, Gavin Graves 2018, Arya Pokhrel 2018, George Varghese 2018.

**Millard South:** Aasia Fortier 2012; Morgan Baier 2014; Collin Burton 2014; Cassidy Kepler 2014; Amy Moore 2015; Mallory Burton 2016; Shelby Cooper 2016; Barrett McDonald 2016; Angelica-Mae Cipriano 2017, Emily Philo 2017, Kristin Pivonka 2018.

**Millard West:** Karina Marin 2012; Cameron Riecke 2012; Brianna Weber 2012; Mary Danielson 2013; Conner Hile 2013; Austin Post 2013; Sujana Maddipati 2014; Courtney Shannon 2014. Emma Frerichs 2015; Sean Powell 2015; Henry Anderson 2016; Bailey Newsome 2016; Thomas Owens 2016; McKenzie Paulison 2016; Morgan Penry 2016; Omid Sidiqi 2016; Abigail Konz 2017, Preston Lau 2017, Kobe Bosley 2018, Corrina Cramer 2018, Keith Dietz 2018, Joel Jacob 2018, Amara Rodis 2018.

**Murray Conestoga:** Kaylyn Weilage 2018.

**Omaha Benson:** Daisy Gonzales 2011; Luz Tapia 2011; Shannon Weeks 2011; KaShonda Williams 2011; Michaela Menard 2012; Charlene Shambare 2012; Kylee Askew 2013; Emily Dennis 2013; Jasmine Ayers 2014; Mileah McKelvy 2014; Monica Houston 2015; Tyler Miller 2015; Katelyn Oathout 2015; Purni Biswakarma 2016; Grace Harkins 2016; Mason Kroeger 2016; Whitney Brodersen 2017, Devan Ritchie 2017, Anna Weddington 2017, Marissa Montalvo 2018, Steven Pruss 2018.

**Omaha Bryan:** Matt Estabrook 2011; Mariah Bliss 2012; Daisy Gomez 2013; Monica Barajas 2014; Ashley Bacon 2017, Ana Gonzalez 2018, Esmeralda Rodriguez 2018.

**Omaha Burke:** Keely Emmack 2011; Rachel Hilt 2011; Gregory Wilcockson 2011; Damian Catlin 2012; Marcel Hallaert, Jr. 2012; Gary Liu 2012; LaRae Mottl 2012; Travis Craig 2013; Emma Nice 2013; Alex Goodman 2014; Emma Robbins 2014; Brianna Shaw 2014.; Amber Wood 2014; Brianna Martinie 2015; Sierra Brakhage 2016; Brianne Hood 2016; Jonathan Kent 2016; Sydney Kirkpatrick 2016+; Fern Thaisethawatkul 2016; Alexandra Gaeth 2017#, BreAnna Green 2017, Mohamad Hazim 2017#, Tanesha Temple 2017, Audrey Bavari 2018, Sara Curtis 2018, Yessenia Garcia 2018, Brooke Lawson

2018, Emily Rodriguez 2018, Karol Rubio Acosta 2018, Samantha Wood 2018.

**Omaha Central:** Fajehat Ara 2011; Marquise Lindsey 2011; Noam Margalit 2011; Melissa Sutton 2012; Lauren Bandel 2013; Rema Idriss 2013; Brevan Jorgenson 2013; Lucas Meyer 2013; Serena Moore 2013; Sam Parr 2013; Megan Wolford 2013; Heidi Klem 2014; Naima Oz 2014; Abby Wolfe 2014; Madison Wolfe 2014; Noah Yoshida 2014; Mikaela Cooper 2015\*; Yesika Juarez-Oxlaj 2015; Emily Mayberger 2015; McKenna Paintin 2015; Elijahiana Parker 2015; Diana Castillo 2016; Melanie Dryak 2016; Peter Hinchey 2016; Emily Petrick 2016; Alexis Shade 2016; Taylor Burghardt 2017, Cindy Licea 2017, Joseph Lukowski 2017, Alexsus Richardson 2017, Kayliana Taylor 2017, Isabeau Tholen 2017, Allison Zetterman 2017, Max Christensen 2018, Alyssa Lawrence 2018, Jon Paul 2018, Sekina Yaseen 2018.

## Finishing Up . . . The Stellar Seniors . . .

The Stellar Senior class this year completed independent studies in labs that researched types of pediatric cancers, pancreatic cancer, infectious diseases, and mosquitoes that carry the Zika virus. The Stellar Seniors also took classes and served on the Honor Council. We wish this class of Stellar Seniors the best of luck on their future health care careers.
