Welcome Message

Welcome to the UNMC High School Alliance! We are delighted that you will be on campus every afternoon (or as much as possible) for an entire school year. As you know, our program is a partnership between the University of Nebraska Medical Center and public school districts in the greater Omaha area. It is designed to offer unique and innovative science classes to high school juniors and seniors – classes that are not available in the traditional high school setting.

Our mission is to be an academic enrichment program that will immerse highly motivated, secondary students from varying educational and socioeconomic backgrounds into an environment which will introduce them to health professions leading to a more diverse Nebraska workforce.

It is our vision that the program will become a national model for high school education, serving students from all backgrounds and will eventually populate health professions.

Most of the policies in this handbook have been developed by former students, UNMC faculty, our teachers, and staff. We believe that each of you will have much to contribute to our program and that this will be a place where you can develop your passion for the health sciences.

You will need to manage your time wisely and focus your attention on your course work so that you can be successful in this program. When you need it, please ask for help as we are here to support you and work with you while you are here.

In a small setting like the UNMC High School Alliance, we can come together to learn, develop teamwork, and create lasting friendships. We look forward to getting to know each of you in the coming year and ensuring that your experience in this program and at UNMC is rewarding.

Thank you.

II. Campus Services and Information

School Territory Defined
The University of Nebraska Medical Center (UNMC) campus rules will be enforced during the High School Alliance classes, on UNMC grounds, and areas adjacent to UNMC property. UNMC jurisdiction is defined on the campus map (see the Appendix section of this handbook). Incidents which occur near UNMC boundaries and which disrupt the High School Alliance’s learning environment or threaten the safety of others may also be subject to UNMC disciplinary action.

Tobacco Free Campus
UNMC is a tobacco-free campus. Tobacco use is prohibited:
1. In all indoor and outdoor properties owned and maintained by UNMC, including leased properties and parking lots
2. In all vehicles whether owned, leased or rented by UNMC
3. In all vehicles when parked on UNMC property

Parking
Parking passes will be distributed to students who drive themselves to campus. The UNMC High School Alliance will cover the initial cost of the permits. Students are responsible for paying to replace lost or stolen permits, as well as paying for tickets and fines incurred as a result of parking in unauthorized lots.

Parking Services is located within the UNMC Bookstore on the 2nd floor of the Student Life Center 39th & Jones Street. Their phone number is 402-559-8580.

Students are permitted to park only in the designated student lots:
1. Lot 17: 45th and 46th Streets and Emile and Jones Court (west side of campus) This lot should be a student’s first choice.
2. Lot 15S: 40th between Emile and Dewey (east side of Student Life Center)
3. Lot 63: Located one block south of 40th and Leavenworth at any point, you no longer need to park on campus, please return your parking pass to the UNMC High School Alliance staff.

**Campus Security**
The UNMC Security business office is located on the southwest corner of the Academic Research and Services Building on 42nd and Emile Streets.
- The office is open Monday through Friday from 8:00 a.m. – 4:30 p.m.
- Security Personnel are on duty 24 hours a day, 7 days a week.
- The Security Business Office can be reached at 402-559-4439, or via fax at 402-559-8625

Help Security Help You:
- For help or assistance, call 402-559-5111.
- Call 402-559-5555 to report all unusual activities and crimes.
- Do not leave purses, backpacks, or other valuables unattended.
- Upon request, Security will escort individuals to their vehicles.

**Blue Light Emergency Phones**
Blue Light Emergency Phones are direct lines to Security Dispatch, at 22 locations throughout the UNMC/The Nebraska Medical Center Campus. The phones can be seen on 7-foot poles or on building walls, with the word EMERGENCY. The units are activated by a push button, which identifies the location, and prompts Security to respond directly to the location. Pushing the button also activates a secondary blue strobe light on the unit. Students are encouraged to use Emergency Phones for any emergency.

**Campus Security Website (info.unmc.edu/Security)**
Campus Security posts Daily Security Summary Reports, Security Alerts/Personal Safety Videos, and other security and personal safety related information on the UNMC intranet. Students and employees are encouraged to review the information on a routine basis and contact Campus Security with any questions or concerns.

**E2Campus Website**
E2Campus provides emergency notification through text messaging. Students can register on UNMC’s E2Campus Emergency Notification System by logging onto http://unmc.omnilert.net or via Canvas.

The selective mass communications platform, which is aimed at improving safety on campus, enables the rapid delivery of messages via mobile phone text message, email, pagers and smartphones. Notifications will only be sent in the case of a potentially life threatening circumstance.

**Appendix**
Included in the Appendix section of this handbook is more information about UNMC safety procedures, campus maps, and building evacuation plans. Your teachers will review this information with you.

**Lost, Stolen, or Missing Items**
UNMC assumes no responsibility for any student items that are lost or stolen. If you believe that your items have been stolen, contact campus security immediately.

*McGoogan Library of Medicine*
*PLEASE NOTE: THE LIBRARY IS BEING REMODELED AND WILL BE CLOSED UNTIL EARLY 2021*

**High School Alliance Books**
Students will check out all assigned books and other course readings from the High School Alliance teacher of record. The textbooks and other reading assignments will be checked out for the full semester or year (depending on the length of the class), and will need to be returned at the end of each course (Fall semester – December 2020 and Spring semester – May 2021). Students, parents, and the student’s home high school will receive past due notifications for items that are not returned.

Students must pay for any books that are lost, damaged, or not returned at the end of each semester.
**Campus Food Services.** (Current COVID-19 procedures may affect campus food services)

*University Hospital and Durham Outpatient Center*

Food may be purchased at the Nebraska Café (cafeteria) or the C-Store. Both are located on the 3rd Floor between Wittson Hall and the Durham Outpatient Center. Nebraska Café hours of operation are 6:30 a.m. – 7:00 p.m.

*Michael F. Sorrell Center and Durham Research Center*

Throughout the week vendors serve meals in the Sorrell Center from approximately 11:00 a.m. to 1:00 p.m. in the seating area on the 2nd floor located at the end of the overpass between Wittson Hall and the Sorrell Center; and also in the atrium between the Durham Research Center towers. Each vendor offers a main course with one or more sides for approximately $7.00. Drinks are not included in the meal price, but can be purchased at the Sorrell Center Convenience Store, the C-Store, or vending machines located throughout campus.

**III. Student Health Issues**

**Immunizations and Tuberculosis Skin Testing**

In compliance with state regulations, UNMC High School Alliance students must be protected by immunization against the following diseases: measles, mumps, rubella, hepatitis B, tetanus, diphtheria, pertussis, polio, and varicella. Records of student immunizations will be maintained by the UNMC Student Health office, and such records will be available as needed to other institutions to which the student is assigned. Students who do not provide the required immunization records will not be permitted to participate in activities in patient care and research areas.

Students must also submit their tuberculosis skin testing records. These records will also be maintained by the UNMC Student Health office and made available as needed to other institutions to which the student is assigned.

**Blood and Body Fluid Exposure**

All blood & body fluid exposures must be reported immediately to The Nebraska Medical Center Employee Health, or by calling the post-exposure paging system, which is available 24 hours a day, 7 days per week.

The post-exposure paging system is accessed as follows:

*9-888-OUCH (6824) On Campus
888-OUCH (6824) Calling from Off Campus

**Substance Abuse or Dependency Standards of Conduct – Alcohol and Drugs**

The University of Nebraska Medical Center (UNMC) desires to provide students with a drug-free, healthy, safe and secure educational environment. Certain behaviors that impede academic performance and which may also endanger patients in the health care setting are prohibited according to the UNMC Policy entitled —Standards of Conduct for Employees and Students on Alcohol and Drugs.

Summary of Prohibited Behaviors:

1. Use, possession, manufacture, distribution or sale of illegal drugs, or drug paraphernalia
2. Unauthorized use or possession of, manufacture, distribution, or sale of a controlled substance
3. Unauthorized use, manufacture, distribution, possession, or sale of alcohol
4. Storing in a locker, desk, vehicle, or other place on University-owned or occupied premises, any unauthorized controlled substances, drug paraphernalia or alcohol
5. Use of alcohol off University premises that adversely affects a student’s academic performance or shadowing experience
6. Possession, use, manufacture, distribution or sale of illegal drugs OFF University premises that adversely affects the student's academic performance, a student's safety or the safety of others
7. Violation of State or Federal laws relating to the unauthorized use, possession, manufacture, distribution or sale of alcohol, controlled substances or drug paraphernalia

Any UNMC High School Alliance student who engages in any of these behaviors will be dismissed from the program.
IV. Student Policies

Maintaining Contact Information
Due to the limited time that students are present on campus, it is imperative that UNMC High School Alliance faculty and staff can communicate with students when important issues arise. Additionally, important documents regarding the UNMC High School Alliance are mailed to students’ residences throughout the year. Students must notify the UNMC High School Alliance at 402-559-3027 or unmchsalliance@unmc.edu of any changes in contact information, including home phone number, cellular phone number, and home address.

Confidentiality of Patient Information
Both federal and state laws protect the privacy of patient information. The Health Insurance Portability and Accountability Act, known as “HIPAA”, provides patients with federal privacy and information security protection.

The HIPAA Privacy Rule applies to all forms of patient information, called protected health information (PHI), including information in electronic, written, or oral form.

Examples of PHI covered by HIPAA are: medical records, patient bills, patient prescriptions, radiology films, discussions about patient care, and research using patient information.

The HIPAA Security Rule implements safeguards over electronic PHI maintained on computers, portable devices, and biomedical equipment.

During the UNMC High School Alliance, students may observe patient care begin delivered and patient diagnoses being given. Students must not share any specific information about patients or patient care/diagnoses events with others outside the courses, even if patient names are not used. Students must not share any patient information with friends or family members, including posts on any social networking sites such as Facebook, Twitter, Instagram, Snapchat, etc.

Students must not share User IDs and passwords to e-mail and other systems with anyone else. If a student’s password is compromised, immediately report the matter to one of the teachers or the UNMC High School Alliance staff.

Individuals and organizations can be subject to large financial penalties and even imprisonment under HIPAA for improper disclosure of patient information. Maintaining the trust of patients by protecting their health information is vital to providing quality healthcare. It is the students’ responsibility and obligation to maintain the confidentiality of patient information at UNMC and at other health care organizations visited as a part of the UNMC High School Alliance.

Absence and Tardiness Procedures
Students are required to attend UNMC High School Alliance classes every day, Monday–Friday unless otherwise excused by a parent or guardian. The UNMC High School Alliance staff will report information about all absences to the students’ home high schools.

Excused Absences
Parents or guardians may excuse their UNMC High School Alliance student by contacting the UNMC High School Alliance Office at 402-559-3027 or unmchsalliance@unmc.edu. Notification should occur at the earliest possible convenience or by 12:30 p.m. on the day of the absence. Please note that for accurate record keeping, the UNMC High School Alliance staff will need to ask for the reason of the absence.

Unexcused Absences and Tardiness
UNMC High School Alliance students are expected to be seated and ready to begin class at 1:00 p.m., unless arrangements have been made in advance with the appropriate UNMC High School Alliance staff. Tardiness or unexcused absences will result in a documented contact first to the student’s parents or guardians and then to the home high school attendance office. The student will then face the consequences set forth by his/her home high school. In extreme cases of tardiness and/or absences (both excused or unexcused), UNMC reserves the right to dismiss the student from the program.
Winter Weather
UNMC High School Alliance classes will be canceled when the Omaha Public Schools (OPS) are closed. In the event that your district has an early dismissal or a school closure, but OPS does not, you may be excused from UNMC High School Alliance classes, but your parents/guardians must contact the UNMC High School Alliance to excuse you. This absence will be treated as any other.

Identification Badge
Each student will receive a UNMC identification badge that must be worn at ALL times while on campus, and while participating in UNMC High School Alliance activities off-campus. Your ID badge is part of your uniform. Many areas of campus including classrooms are restricted to authorized personnel, and students will not be admitted without proper UNMC identification. Lost badges are the responsibility of the student and will cost $15.00 to replace. All badges must be returned upon the conclusion of the academic year.

Dress Code
UNMC High School Alliance students are required to wear a uniform every day to ensure student safety in class and laboratories. The uniform must also be worn when shadowing, being in a research lab, or participating in a UNMC High School Alliance activity off-campus. For the 2020-2021 school year or until further notice, students are required to wear a face covering while on campus.

For first year students the uniform consists of a UNMC High School Alliance red polo shirt, black jacket, and black colored pants that are long enough to cover the ankles. Your shoes must cover your feet, are closed-toed, in good condition, and professional. All students must wear socks that cover the ankle and the space between your shoes and your pants.

For second year students the uniform consists of a UNMC High School Alliance grey polo shirt, black jacket, and black colored pants that are long enough to cover the ankles. Your shoes must cover your feet, are closed-toed, in good condition, and professional. All students must wear socks that cover the ankle and the space between your shoes and your pants.

The uniform jackets are not required every day, however, when the jackets are worn, the red or grey uniform shirt must also be worn.

Shorts, skirts, capri pants, leggings, yoga pants, pants with athletics branding, tights, pants made of fleece, pants made of velour are prohibited. “Pegging” or “rolling” of pants is not allowed. Flip flops, sandals, ballet flats, open-toed and open-back shoes are prohibited.

Students may wear a base layer underneath their polo shirt. If students do this, the base layer must be in the UNMC primary branding colors which are: red, black, white, or grey. No other colors are permitted. The base layer must be unmarked.

Students who do not comply with the dress code, particularly on days that are spent in the laboratory may be prohibited from participating in laboratory activities. Failure to comply with the dress code will affect shadowing privileges, field trips, social events, end-of-year activities, or dismissal from the program.

Email and Canvas Accounts
UNMC High School Alliance students will be issued a UNMC Outlook email account and a Canvas account. User names and passwords are not to be shared with anyone. Curriculum updates, announcements, and other important information will be delivered through these accounts. Students must check their UNMC Outlook email and Canvas accounts daily to ensure they are receiving the necessary information. Computers are available for student use throughout the Sorrell Center. Students will be shown how to access their accounts when off campus.

Social Media Guidelines
The University of Nebraska Medical Center supports the use of social media - tools such as blogs, wikis, Facebook, LinkedIn, Instagram, Twitter, SnapChat, YouTube, TikTok and the like - as a communications platform to connect with patients, students, colleagues, alumni and friends. Because many UNMC community members use these platforms in
both their personal and professional lives, it is important to distinguish proper use of these tools as a member of the UNMC community.

These guidelines are meant to permit appropriate use of social media, while prohibiting conduct through social media that is illegal or against UNMC policy or professional standards.

As a student in the UNMC High School Alliance program, you represent both your home high school and the University of Nebraska Medical Center. Please ensure that the content you are posting or sending electronically is appropriate for the audience, the venue, and the social media site where you are posting. There is often a mistaken belief that content which has been deleted from a social media site is no longer accessible, but these postings may be viewable by college admissions boards, licensing boards, or future employers.

Preventing friends and family from posting images or information about you may be difficult, but make it a point to tell them about your professional role and the expectations regarding social media while you are a student in the program. Be careful that your actions or comments on social media sites do not violate any of your home high school policies, any University of Nebraska Medical Center policies, or any policies of prospective colleges where you may be applying. Do not post informal, personal or derogatory comments about your peers, faculty, staff, patients, or employers on social media sites.

Students who violate the UNMC Social Media policy may be subject to corrective action up to and including dismissal from the program.

Report Cards and Progress Reports
The UNMC High School Alliance reports letter grades and grade percentages to the students’ home high schools at the end of each semester or earlier upon request. Students can access their grades at any time through their Canvas account. The grades earned at the UNMC High School Alliance are for high school credit only. Students participating in this program will NOT receive a college transcript from UNMC.

Cell Phones and Electronic Devices
The use of cell phones and other electronic devices are not permitted in class, lab, or clinic, with the exception of laptops used to take notes in class. In an emergency, parents are expected to contact the UNMC High School Alliance (402) 559-3027, if they wish to reach their student. They should not contact the student directly via cell phone during class time.

Food and Drink
Food and drinks are not allowed in lab or clinic. Food and drinks are also prohibited in classrooms; however, drinks in a closed container may be permitted in classrooms, pending instructor approval and per the guidelines of the building where the classrooms are located.

High School Alliance Mentor Lunch & Learn Sessions
UNMC professional students will have mentoring roles in several the UNMC High School Alliance courses. If time allows, the High School Alliance will host lunch and learn sessions throughout the school year with the professional students. Unofficial, off-campus visits with mentors are not permitted.

Parent Teacher Conferences
Parent-teacher conferences will be held once during the fall semester and once during the spring semester at UNMC. Parents or guardians will receive notifications providing more information, exact location, and available conference times.

Student Benefits
Students and immediate family members will receive free admission to the Durham Museum throughout the year. Students must present a valid UNMC identification badge upon admission. Students will also receive free admission to the Joslyn Art Museum, no badge required.
V. Student Misconduct

Non-Academic Misconduct
UNMC High School Alliance staff will notify the appropriate administrator at the student’s home high school of non-academic student discipline issues. All cases will be documented and communicated with the student’s parent or guardian. UNMC High School Alliance staff reserves the right to dismiss the student from the learning environment, place the student on probation, and/or dismiss the student from the program if his/her behavior warrants such action.

Academic Misconduct
Academic misconduct is defined as the falsification of official documents and/or obtaining records, examinations, or documents without authorization. Several examples of academic misconduct are:
1. The unauthorized acquisition, selling, or otherwise distributing of all or part of an un-administered test
2. Cheating (see Cheating section below)
3. Plagiarism – the appropriation of another person’s ideas, processes, results, or words without giving appropriate credit, such as an attribution or citation
4. Changing an answer or grade on an examination without authorization
5. Falsifying information on an official document such as a grade report, transcript, an instructor’s grade book or evaluation file or being an accessory to an act of such falsification
6. Forging the signature of an authorizing official or parent/guardian(s) on documents such as letters of permission, transcripts, and/or other official documents
7. Unauthorized entry into a building, office, file or computer database to view, alter, or acquire documents

Cheating
A general definition of cheating is the use, or attempted use, of unauthorized materials or information for an academic exercise. Examples of cheating include but are not limited to:
1. Using unauthorized materials such as books, notes, calculators, or other aids during an examination or other academic exercises
2. Receiving unauthorized assistance from another person during an exam or exercise such as copying answers, receiving answer signals, conversation, or having another person take an examination for you
3. Providing assistance to another person during an exam or exercise, such as allowing your answers to be copied, signaling answers or taking an exam for someone else
4. Obtaining answers and/or other information without authorization from someone who has previously taken an examination
5. Including all or a portion of previous work for another assignment without authorization
6. Appropriating another person’s ideas, processes, result, or words without giving appropriate credit, i.e. an appropriate attribution or citation (plagiarism). For example, a student who quotes verbatim the results of a previous student’s work in a required term paper, but fails to credit the individual through citation

A violation of the standards of academic integrity is viewed as a very serious matter at UNMC. Academic misconduct violations will lead to disciplinary action, which may include dismissal from the UNMC High School Alliance program.

Honor Council
The UNMC High School Alliance will utilize a student-led honor council to decide on matters of academic misconduct. The primary goal of the honor council is to promote and ensure ethical academic behavior in the UNMC High School Alliance.

Honor Council Duties
1. Hear, investigate, and provide disciplinary recommendations on matters of academic misconduct, and
2. Promote ethical academic behavior by organizing events that highlight the importance of academic honesty and integrity.

Honor Council Personnel
Council Members
The honor council will consist of at least five (5) UNMC High School Alliance students elected by their peers in addition to the second year seniors. No more than two students on the honor council may be from the same high school and all courses will be represented.
Members of the honor council must be current students in the UNMC High School Alliance. Students who separate or withdraw from the program will be replaced by the alternate, should there be one. Special elections will be held if more than one alternate member is needed.

**Student Chairperson**
The honor council will consist of a UNMC High School Alliance student chairperson, elected by honor council members, who will lead the proceedings and serve as the designated representative to take the disciplinary recommendations to the honor council facilitator.

**Student Secretary**
The honor council will elect a student secretary who will document all proceedings and meetings of the honor council. Documentation will be maintained by UNMC High School Alliance administrators.

**Honor Council Facilitator**
The honor council facilitator, a UNMC faculty member, will be present for academic misconduct hearings, and has discretion to uphold, reject, or modify the findings and recommendations of the honor council.

**Honor Council Procedure**
The honor council will meet as needed throughout the year. Honor council elections will take place in September of each school year and the council will be required to meet before the end of September to elect a chairperson and to become familiar with honor council procedures. The honor council facilitator will oversee all meetings and disciplinary hearings.

The following steps will occur after an alleged infraction is identified:

1) **Notification**
   Notification will be provided to the student's parents/guardians, the appropriate disciplinary contact in his/her home high school, and the appropriate UNMC High School Alliance faculty and staff members.

2) **Hearing Scheduled**
The honor council chairperson will schedule a hearing. Individuals present at the hearing will include the honor council, honor council facilitator, student violator, and witnesses to the alleged academic misconduct. Determination and investigation of possible witnesses will be conducted on a case-by-case basis.

3) **Hearing Procedure**
   At the hearing, the suspect will present his/her version of the facts. Following that, witnesses will testify, and the honor council facilitator will add any relevant evidence that was not presented, but should be considered. The honor council can ask questions of the suspect and witnesses that appear before them.

4) **Vote on Infraction Occurrence**
   Following the testimony, the honor council will enter a closed-door session where they will take a private vote on whether an infraction occurred. An agreement is reached by a majority of the honor council members.

   **No Infraction = Case Dismissal**
   If the honor council decides that an infraction has not occurred, the case will be dismissed, and the parents and school personnel will be notified. The honor council facilitator cannot impose penalties if the honor council adjudges that no infraction occurred.

   **Infraction = Consequence**
   If the honor council decides an infraction has occurred; it will recommend a consequence to the honor council facilitator. The facilitator, in collaboration with the certified high school teachers, makes the final decision whether to uphold, reject, or modify the recommendation. The results will then be communicated to the student, his/her parents/guardians, and appropriate faculty/staff within both the UNMC High School Alliance and the student’s home high school. The honor council facilitator has the authority to unilaterally vacate a council ruling that an infraction has occurred based on evidence that cannot ethically be shared with honor council members.

5) **Final Report**
The honor council facilitator will approve a final report documenting the case, which will be placed into the student's UNMC High School Alliance academic file.
**Academic Misconduct Consequences**

The honor council will recommend consequences for students who have violated the academic misconduct policy. All recommended consequences are subject to final approval of the honor council facilitator, certified teachers, and UNMC High School Alliance administrators, who have the authority to uphold, reject, and/or modify all recommended consequences. Depending on the infraction, consequences may include dismissal from the UNMC High School Alliance.

Honor council consequences do not take the place of high school disciplinary procedures. A student may be subject to penalties at both his/her home high school, and the UNMC High School Alliance.

**Academic Misconduct Violations by Honor Council Members**

If an honor council member is alleged to have committed an academic misconduct violation, s/he will not participate in the proceedings, and will be replaced temporarily by the alternate honor council member. If the honor council member is found to have committed an academic infraction, the member will be dismissed from the honor council, and subject to the penalties determined by the council.

The UNMC High School Alliance reserves the right to change this policy at any time and will provide appropriate documentation and/or notice to students where applicable.

**VI. Title IX**

**Notice of Non-Discrimination**

The University of Nebraska Medical Center (UNMC) is committed to creating a diverse and inclusive work and learning environment free from discrimination and harassment. UNMC is dedicated to creating an environment where everyone feels valued, respected and included.

UNMC does not discriminate on the basis of race, ethnicity, color, national origin, sex (including pregnancy), religion, age, disability, sexual orientation, gender identity, genetic information, veteran status, marital status, and/or political affiliation in its educational programs, activities and employment. UNMC complies with all local, state and federal laws prohibiting discrimination, including Title IX, which prohibits discrimination on the basis of sex.

**Prohibition of Sexual Harassment and Sexual Violence**

Title IX of the Education Amendments of 1972 (“Title IX”), 20 U.S.C. §1681 et seq., is a Federal civil rights law that prohibits discrimination on the basis of sex in education programs and activities. All universities receiving any Federal funds must comply with Title IX. Under Title IX, discrimination on the basis of sex can include sexual harassment or sexual violence, such as rape, sexual assault, sexual battery, and sexual coercion.

At UNMC Title IX provides protections to students, post docs, residents, fellows, and others participating in academic programs. To report an incidence of sexual harassment or sexual violence, contact Carmen Sirizzotti, MBA, Division Director, Strategic Staffing, Compensation, Records, HRIT, 402-559-2710, csirizzotti@unmc.edu, Title IX Coordinator.

## Family 3/2 Plan for Attendance
- Last Name begins with A-K – Always attends Monday & Tuesday
  - Week 1 of school A-K will attend on Wednesday
- Last Name begins with L-Z – Always attends Thursday & Friday
  - Week 2 of school L-Z will attend on Wednesday

These two groups will alternate Wednesdays for the duration of 1st Semester.

Programs/building listed below are at school every day - exempt from 3/2 Plan.
- Early Childhood Special Education
- K-12 Hearing Impaired Classrooms

Simulation Suite
This state-of-the-art facility features a Simulation Suite designed to emphasize the increasing role of pharmacists in providing primary health care. In these simulated exam and hospital rooms, students can work with programmable mannequin patients: practicing throat and nasal swabs and blood pressure checks; giving immunizations; and reviewing discharge instructions and medications that patients will take when they return home.

Aseptic and Gowning Lab
The Aseptic and Gowning Lab is an area where students will gain invaluable experience learning proper gowning techniques and practice working within a sterile environment. The aseptic lab contains several types of hoods as well as video equipment that allows students to record and review their processes.

Student Interaction
The Student Interaction area is designed to optimize collaborative learning.

Model Pharmacy
The Model Pharmacy provides a simulated retail setting where students gain experience with computer systems, dispensing medications and consulting patients.

Compounding Lab
The Compounding Lab is equipped with advanced technology that allows students to view professors’ demonstrations at their learning stations. They can also record their work so instructors can provide effective feedback and assistance for optimal learning.
Joseph D. & Millie E. Williams Auditorium

The Joseph D. & Millie E. Williams Auditorium is a contemporary education space that accommodates 70 students. The auditorium is equipped with interactive technology.

Colleen Currie Cleveland, Pharm.D.

Medium Classroom

Drs. Edward B. & Victoria F. Roche

Large Group Room

College of Pharmacy Class of 1986

Small Group Room

Donor Recognition

Walkway to Sorrell Center for Health Science Education

OEP Suite

The Office of Experiential Programs (OEP) is responsible for the oversight and administration of the clinical experiences of the pharmacy curriculum.

Dean’s Suite

Bob & Eileen Griffith Family

Large Classroom

Kohll’s Pharmacy & Homecare Computer Cluster

Classrooms were designed with versatility in mind. Instructors can give a presentation to the entire class or move the tables and break out into groups at the side monitors.
Dr. Jonathan L. Vennerstrom’s Laboratory

Our research focuses on antiparasitic drug discovery, particularly antimalarial drug design and synthesis and the investigation of heme as a mechanistic intersection for antimalarial drugs.

Dr. Martin Conda-Sheridan’s Laboratory

Our research focuses on the design of complex multifunctional biomaterials and bioactive small molecules for medicinal applications. These biomaterials will function as supramolecular drugs (nanodrugs) or as nanocarriers for the targeted delivery of novel small molecules.

Dr. Corey Hopkins’ Laboratory

Our area of research focuses on the synthesis and optimization of biologically active small molecules as in vivo probes, drug discovery lead compounds and preclinical candidates. We continue to focus on designing novel positive allosteric modulators related to the numerous central nervous system (CNS) therapeutic areas.

Dr. Dong Wang’s Laboratory

Increasing Antiretroviral Penetration into Reservoir Tissues – Dr. Courtney V. Fletcher
Improving women’s health in HIV – Dr. Kimberly Scarsi
Optimizing Treatments for HIV and Tuberculosis Co-Infection – Dr. Anthony Podany

UNMC Antiviral Pharmacology Laboratory

Our research is currently focused on areas of macromolecular therapies for inflammatory diseases and Dentrotropic therapies for oral and craniofacial diseases.
If a crisis situation is known on campus, use the following procedures to lockdown the facilities/rooms:

- Lock/block classroom and suite doors.
- Close all shades.
- Keep everyone quiet and away from any doors and windows.
- Silence all cell phones and pagers.
- Remain calm and stay with others in your area.
- If a gunshot is heard, keep people down near the floor and shielded under or behind furniture as much as possible.
- Conduct a count of all persons and report any missing persons to authorities.
- No one should leave a building or secure area while under a lockdown order.

THE BUILDING AND/OR CAMPUS LOCKDOWN WILL REMAIN IN EFFECT UNTIL CANCELLED BY AUTHORITIES
Active Shooter Response

Purpose
1.1 To establish general guidelines that can be used to formulate an effective response to mitigate the hazards that occur when an active shooter situation arises on campus.

Introduction
2.1 This plan contains information that requires education of all our campus community members (CCM) which includes staff, students, faculty and contractors.

2.2 Although active shooters are not an everyday occurrence, the potential for this type of incident exists.
1. Past history has shown that high profile targets tend to be high schools, shopping centers and college campuses.
2. Law enforcement has recognized other potential targets for such activity to be movie theaters and hospitals; therefore, it is vital that our campus develops emergency plans, procedures, training/education, and acquires the needed resources to prevent or mitigate such activity.

Definition
3.1 An active shooter is a person who appears to be actively engaged in killing or attempting to kill people in a populated area.

3.2 There is no pattern or method to their selection of victims.

3.3 These situations are dynamic and evolve rapidly, demanding immediate deployment of law enforcement resources to stop the shooting and mitigate harm to innocent victims.

3.4 This document provides guidance to campus individuals to assist anyone who may be caught in the active shooter situation, and describes what to expect from responding law enforcement and emergency medical personnel.

Policy
4.1 All CCM will be responsible for knowing and assisting others concerning actions to be taken within their area in the event of an active shooter.
1. All new employees during their orientation will be briefed on the campus policy, “Active Shooter Response Plan.”
2. This policy shall be shared with local law enforcement (OPD).

4.2 It is essential that training be conducted with responding law enforcement agencies to ensure an effective response is developed, which can be completed by briefings, presentations, tabletop, functional or full scale exercises.
4.3 Security has the following items available:
   1. This box contains the following items:
      a. Proxy badges.
      b. DVD containing site and building plans.
      c. Campus policy, “Active Shooter Response Plan.”
   2. These materials are made available to law enforcement so that they have the ability to gain access to a secured area in a timely manner.

4.4 The following strategies are in place to mitigate and detract a potential active shooter(s) from choosing this facility for such an act, and measures put in place to limit the threat include, but are not limited to:
   1. Video surveillance cameras inside and outside the facility to deter an event and to gather intelligence.
   2. Panic alarms and emergency blue light phones located throughout the campus to sound the alarm of a situation.
   3. Limited access to certain areas of the campus.
      a. Proxy card readers are placed on various doors to limit access on campus.
      b. Continued training of the greeters, volunteers, Valet, Access Services staff and other staff working around the entry points.
         i. The active shooter(s) may be probing the area looking to see if they will be confronted.
         ii. If they are approached, that might deter them from choosing our campus as their target.
   4. Use of multiple strategies including PC crawler, Alertcast, E2 Campus, text pagers, etc. to notify staff of an emergency.
   5. If possible and as appropriate, use overhead intercom system where available to notify patients, visitors and staff of an emergency.
   6. Work with Omaha Police Department to ensure the campus is doing all it can to protect patients, visitors, students, faculty and staff from an active shooter.
   7. Train all CCM to be aware of the warning signs of a potential active shooter(s), and to relay that information to their supervisor, resource coordinator or Security.

Procedure

5.1 Warning Signs:
   1. Based upon past events, there may be warning signs or indicators of a potential active shooter.
      a. The individual threatens to harm or talks about killing others.
      b. Constantly starts or participates in violent behavior.
      c. Loses temper and self control easily.
      d. Swears or uses vulgar language most of the time.
      e. Possesses or draws artwork that depicts graphic images of death or violence.
      f. Assaults others constantly to include immediate family members.
      g. Possesses weapons, either firearms or edged weapons or is preoccupied with them.
      h. Becomes frustrated easily and converts frustration into uncontrolled physical violence.
   2. Any CCM who has a feeling someone might be a potential active shooter needs to relay that information to their Supervisor, Resource Coordinator or Security; depending on the time delay, contact Security directly at 9-5555.
   3. All CCM must be continually vigilant to the risk of violence on campus.

5.2 Actions to Take
   1. CALL 911
      a. When calling 911, provide the following information:
         i. Identify yourself
         ii. “I am in the (exact location – campus, building, floor), we have an active shooter(s) on campus; shots have been fired.”
         iii. Exact location of the shooter(s) if known; if not, then the last place or direction you heard gunshots.
i. Description of the shooter(s); sex, race, clothing, type of weapon(s), location, direction(s) of travel, and if known, their identity.

ii. Location and number of victims (if known).

iii. Any other information they request.

b. The 911 dispatcher is relaying this information to responding officers and at this time, you are the eyes and ears for the police officers. The information you provide will assist them in locating and stopping the active shooter(s) as soon as possible. Stay on the line if possible.

2. **HIDE** or **EVACUATE**
   
a. There are two options available if an active shooter is present on campus; one is to **evacuate the building**, and the other is **shelter in place (HIDE)**.
   
i. Each choice is a personal decision.
   
ii. Guidelines are provided depending on which option is chosen in Attachment A - Active Shooter Information.

5.3 Notification Strategies
1. Anyone being aware of an active or potential active shooter(s) needs to not only call 911 but also needs to call 9-5555 so the information can be relayed to the staff inside the campus areas.

2. The use of the panic alarms located throughout the campus will alert Security of a threat, but does not tell the responding officer what that threat is. Security will assess the area prior to entering the area, so as not to get caught in an active shooter situation.

**Hospital/Clinic:**
   
a. Notification inside the hospital/clinics will be made on the overhead intercom system.
   
i. Code Silver will be announced. This is a notification to staff that there is an active shooter on campus. The announcement will include the location if known.
   
ii. Use of text pagers and PC pop-up/crawler.

**Campus:**

E2 campus PC crawler
Alertcast and E2 phone and SMS notification systems

5.4 Law Enforcement Response
1. Law enforcement response will vary depending on the situation; however, based upon their training, the following can be expected from responding police officers.
   
a. They will proceed immediately to the area in which the shots were last heard; their purpose is to stop the shooting as quickly as possible.
   
i. They may ask several times where the shooter(s) is.
   
ii. They need to know so they can stop the actions of the shooter(s).

b. They will normally go in teams and not proceed alone.
   
i. They will not always have on a patrol uniform.
   
ii. They may also be wearing a bulletproof vest, Kevlar helmets, and other tactical gear.
   
iii. They may also be armed with a variety of weapons and equipment.

c. Regardless of how they appear, staff must remain calm, follow instructions, and do not obstruct their progress; it is best for all people evacuating the building to **put their hands in the air and not make any sudden gestures**.

d. The first officers on scene will not stop and assist the wounded; rescue teams composed of other officers and emergency medical personnel will follow the first officers into secured areas to treat and remove injured persons.

e. Once in a safe and secure location, all staff needs to remain on scene, as the entire area is a crime scene, and they will need to provide all necessary information to investigators.

f. OPD will establish an onsite Incident Command location. A security officer and a hospital leader as appropriate should report to assist with guidance and information.
5.4 Fire Department/Emergency Medical Services (EMS) Response
1. The Omaha Fire Department/EMS often requests the assistance of bystanders to help render care to victims. EMS will only respond as directed by OPD when it is safe to do so.
   a. EMS recognizes the unique situation a mass shooting is at a medical facility.
   b. EMS retains the right to maintain command and control of the medical response of all victims until they relinquish that right to hospital personnel at an ER or designated Triage area.
Active Shooter Information

- How can I best protect myself?
- How can I help prevent an active threat?

Overview

Situations involving “active shooters” are a serious concern for our nation’s university and college campuses. Beyond campuses and schools an active threat situation can happen anywhere, including malls, businesses, special events, and within the workplace. The following information is presented to assist members of our campus community with their individual awareness and preparation.

Definitions

Active shooter - A person who appears to be actively engaged in killing or attempting to kill people in a populated area.

Code Silver – Code word used over public address systems in buildings to alert staff of an active shooter situation.

How should I report an active shooter?

Try to remain calm and Call 911 and to Security Dispatch by calling 9-5555 (from a campus phone) or 559-5555 (from a cell phone). Security will dispatch officers and contact local emergency responders.

Once you make contact, be sure you provide the following information:

1. Your name;
2. Your location;
3. Nature of the emergency;
4. Information about the emergency, victim, suspect, injuries, or suspicious activity;
5. Phone number of the phone you are calling from;

It is important that you remain on the line until the Dispatcher either terminates the call or advises you that you can hang up.

Other important information:
If you were able to see the offender(s), give a description of the person(s) sex, race, clothing, type of weapon(s), location last seen, direction of travel, and identity – if known.

If you observed any victims, give a description of the location and number of victims.

If you observed any suspicious devices (improvised explosive devices), provide the location seen and a description.

If you heard any explosions, provide a description and location.

Wait patiently until a uniformed police officer, or a university official known to you, provides an “all clear”.

Unfamiliar voices may be an active shooter trying to lure you from safety; do not respond to voice commands until you can verify with certainty that they are being issued by a police officer or university official.

Attempts to rescue people should only be attempted if it can be accomplished without further endangering the persons inside a secured area.

Depending on circumstances, consideration may also be given to exiting ground floor windows as safely and quietly as possible.

What will Security do?

Respond to the area to control access. Depending on the threat they may need to await the arrival of local law enforcement (police, sheriff and/or state patrol) and provide them information and assistance.

How will the police respond?

Police response tactics include addressing the threat immediately and taking any actions necessary to neutralize the threat as quickly as possible. The safety of all people involved in an active threat incident is of paramount importance and responding officers may forego assistance to injured parties for the express purpose of meeting and neutralizing the threat, thereby reducing the overall number of casualties.

1. Security officers will respond immediately.
2. They will assist members of the local community law enforcement agencies.
3. Security will contact the 911 dispatcher for emergency medical services (EMS) immediately upon report or confirmation of injuries. EMS personnel will not be able to respond directly until law enforcement has determined that the threat is neutralized.
4. The Incident Command Center staff will convene to manage the impacts of the event on the campus community and to lend support and resources to the tactical response agencies.

How will the campus be informed?

Once a confirmed significant emergency or dangerous situation involving immediate threat to the health or safety of students or employees is occurring on campus, the campus community shall be notified, unless a determination has been made that issuing an immediate notification would place the community at a greater risk or would compromise efforts to contain the emergency. Any delay in notification shall be for as short a time as possible.

The campus will issue emergency messages to inform the campus and community of the threat and provide as much information as possible. Messaging systems have limitations, so expect to receive abbreviated action steps to take for your personal safety.
1. If you receive a message, share that information with others in your general area. UNMC Faculty, staff and students can sign up for the e2Campus emergency messaging system. Students can sign up on Blackboard and faculties and staff can sign up via their Employee Self Service (ESS) account.

2. "Code Silver" will be used as the code word over the hospital public address system to alert staff of an active shooter situation.

3. The following messaging systems may be used to keep the campus informed during and after the emergency:
   - Emergency text messaging
   - Mass broadcast media such as radio and television
   - Web site postings on campus and department homepages
   - Emergency Message Computer Pop up system for network computers
   - Alertcast Notification System
   - Email

Notes on the use of cell phones: To increase personal safety and the safety of others, individuals are strongly encouraged to minimize the use of personal cell phones unless it is to report to authorities on the status of the emergency. Mass use of cell phones typically results in system overloads and the general failure of the system until cell phone usage diminishes.

What security measures are in place on campus?

The University of Nebraska Medical Center is protected and served by a full-time staff of security officers. Additionally, there are long established relations with the Omaha Police department and the Nebraska State Patrol.

UNMC has developed a Threat Assessment Team. The objective of the team is to assess the likelihood of escalated violence or disruption to campus operations, as well as identifying measures that can be taken to mitigate risk.

Some departments have panic alarms that alert Security. The campus also has emergency phones located around campus. These can be used to contact the UNMC Security Dispatcher. For information on emergency phones, visit the

What are some of the warning signs?

Based on past events, there may be warning signs or indicators of a potential threat. These include:

- The individual threatens to harm or talks about killing others.
- Constantly starts or participates in violent behavior.
- Loss of temper and self control easily.
- Swears or uses vulgar language most of the time.
- Possesses or draws artwork that depicts graphic images of death or violence
- Assaults others constantly to include immediate family members.
- Possesses weapons either firearms or edged weapons or preoccupied with them.
- Becomes frustrated easily and converts frustration into uncontrolled physical violence.

How can I best protect myself?

Education is the key. Campus Security encourages all faculty, staff and students to access the Security Video Library found on the security website at
The following guidelines are intended to provide information to individuals who have found shelter and/or found themselves engaged in an active threat situation. They are intended to improve both individual and group levels of personal safety.

These situations are very dynamic and they evolve quickly. Individuals need to assess their situation and be prepared to make decisions in a matter of seconds. An active shooter situation typically does not last for a long period of time unless it evolves into a hostage situation.

Recommendations for Individual/Group Safety:

- **Presence of mind**: All people entering classroom and lecture hall facilities (or any mass meeting area or private office) should assess their environment, familiarize themselves with exits, routes of escape, and make a conscious personal decision regarding what their response would be to an incident.
- **Remain calm**: If you are involved in an active shooter incident, your urge may be to panic. This is completely natural, but if you can resist this temptation, your chances of survival will increase. Tell yourself to remain calm and begin to make decisions based on your personal choices. Preparing for such emergencies even if through mental rehearsal based upon these principles can assist in diminishing panic.
- **Call 911** (9-911 from a campus phone) and **Security Dispatch 9-5111** as soon as it is safe to do so.
- **Evacuate if possible**: If you are indoors and the threat is in your location, evacuate the building by a safe route when it is safe to do so. If it is not possible to evacuate, seek refuge (Hide) in an area of safety, preferably behind a locked door.
- **Shelter in place (Hide)**: If the threat is not in your building or you cannot safely evacuate, shelter-in-place - hide (secure yourself where you are) immediately. If you must shelter-in-place, turn off lights, secure all doors and windows as quickly as possible and barricade as many items between you and the threat as possible (i.e. chairs, tables, cabinets, etc.). The goal is to seal off areas to prevent the intruder access.
- **First aid**: Render first aid to injured people who may be in or near your area. Do this so long as it is safe to do so.
- **Silence**: Do not attempt to make contact (verbal or physical) with the individual responsible for the threat unless no other option is available. Remember to silence your cell phone and pagers.
- **Protect yourself**: If you must have contact with the individual posing the threat, attempt to find some cover (solid objects) to place between you and the individual. Minimize the target area by crouching into a position behind solid objects and limit your exposure to the threat. If there is no possibility of escape or hiding, and when it is imminent that your life is in danger you should attempt to overpower the assailant(s):
  - A multiple person attack has a better chance of success than a single person attack when attempting to overpower the assailant(s).
  - Throw everything at hand at the assailant(s), i.e., books, chairs, etc., while engaged in the attack.
- **Remain secure until police arrive**: Once in a secure location, DO NOT open the door for anyone but the police. Before allowing access to the room to anyone, make sure they do not represent a threat to you or others. The attacker may pretend to be an authority or victim to attempt to gain access.
- **Let the police do their job**: DO NOT approach police officers as they attempt to locate and neutralize the threat. During this time, the officers are trained to seek out and respond to the threat, which could include the use of deadly force. They may not be able to assist with the evacuation or provide medical assistance to injured parties. Once the
If you are in an outside area and encounter an active shooter, you should:

1. Try to remain calm
2. Move away from the active shooter or the sounds of gunshot(s) and/or explosion(s)
3. Look for appropriate locations for cover/protection, i.e. brick walls, retaining walls, large trees, parked vehicles, or any other object that may stop bullet penetration
4. Try to warn other faculty, staff, students and visitors to take immediate shelter
5. CALL SECURITY DISPATCH at 9-5111 and 911, and provide the information listed in the “reporting an active shooter” section

Recommendations for persons in charge:

If the incident is occurring in your area direct someone to report the event to police and security (See “How should I report an active shooter?”)
- Inform those in your area
- Guide others out if you can avoid the shooter
- Silence cell phones and pages
- Guide others to take cover and hide if you cannot get out safely.

If the incident is occurring in another building or somewhere else on campus,

- Inform those in your area that there is an incident on campus, it is not in our building and we are asking that they stay here until it is safe to leave.
- Monitor developments and be prepared to guide others to take cover and hide if conditions warrant.

How can I help prevent an active threat?

- If you see something, Say something. Report concerns to your supervisor or Security.
- Personal awareness of your surroundings, what is going on around you, the distance to nearby windows and doors will increase your personal safety. If something about your situation does not appear to be "right," be prepared to act in your best interests.
- Monitor others for signs of stress or severe depression. Report any concerns to the appropriate person(s) (i.e. supervisor, resident advisor, professor, counselor, Security officer, etc.).
- Early detection of individuals having personal problems or demonstrating odd or threatening behavior may be the best method for reducing the likelihood of active threat events. We have exceptional resources to assist people.
  - UNMC Faculty/Employee Assistance Program (402 559-5323) and the Counseling and Student Development Center (402 559-7276)
  - UNMC P uses the UNMC Faculty/Employee Assistance Program (402 559-5323)
  - TNMC EAP Arbor Family Counseling Employee Assistance 402-330-0960
  - Clarkson College of Nursing Arbor Family Counseling Employee Assistance 402-330-0960
- UNMC Security officers are available to speak to groups about prevention and mitigation of active shooter/active threat events. To schedule a meeting with your group and an officer, call 402 559-4439
- Report suspicious activity! If any situation appears odd, "out of place," suspicious, or "makes the hair stand up on the back of your neck," report it immediately to the Security police by calling 9-5555 from a campus phone or 402 559-5555 from a cell phone.
• View the video “Flashpoint” which provides information and Awareness, action and prevention. Video can be found online at the Security Training Video Library. (LINK)

If a concern is reported to me how what should I do?

Those in charge: If you see or hear something, do something.

Do not ignore it. Report it to Security.

Depending upon the situation the Threat Assessment Team will be activated. Some key triage items include:

• Any mention of suicidal thoughts, plans, and/or attempts?
• Any mention of thoughts/plans of violence?
• Any behaviors that cause concern for violence or the person’s well being?
• Does the person have access to a weapon or are they trying to gain access to one?
• Are there behaviors that are significantly disruptive to the work or campus environment?

Homeland Security Wallet cards - (We could modify them for campus use)

Receipt of UNMC High School Alliance Handbook Acknowledgement
Please remove this form from the handbook and return it to the UNMC High School Alliance staff

We, the undersigned, acknowledge that we have received a copy of the 2020-2021 UNMC High School Alliance Student Handbook. By our signatures below, we acknowledge, understand, accept, and agree to comply with the information therein. We understand that all students will be held accountable for their behavior, and that failure to abide by the guidelines provided in the UNMC High School Alliance handbook can result in disciplinary action and/or dismissal from the program.

We are aware that the UNMC High School Alliance reserves the right to amend or add to the information contained in this handbook at any time.
