Faculty Openings

Occupational Therapy Education

The College of Allied Health Professions at the University of Nebraska Medical Center, is seeking applicants for full-time, 12-month faculty lines in the newly developing entry-level doctoral program in the Division of Occupational Therapy Education.

The mission of the Occupational Therapy Education Division is to advance health through meaningful participation in everyday living for all people and communities. The program has three themes: Occupation for health, Personal and professional development, and Translational science.

Faculty members will engage in:

- Teaching
- Scholarship
- Service, including mentoring students during their doctoral capstone.

Preference will be given to applicants with content expertise in pediatrics and mental/behavioral health. Faculty can be located on either Omaha or Kearney campus, though preference will be given to applicants for the Kearney campus.

As Nebraska’s only public academic health sciences center, UNMC is committed

- to the education of a 21st century health care work force,
- to finding cures and treatments for devastating diseases,
- to providing the best care for patients,
- to serving our state and its communities through award-winning outreach, and
- to embracing the richness of diversity.

Reasons to work here:

- UNMC is renowned for its leadership in healthcare, education, research, and innovation.
- UNMC has state of the art simulation facilities and many opportunities for interprofessional collaboration.
