The College of Medicine Innovation Fund supported:

- the people and programs of the University of Nebraska Medical Center Alumni Association;
- the annual White Coat Ceremony for M1s;
- the purchase of a “test bank” for M2 students. The test bank is a database of questions designed to help prepare medical students for important examinations to assess their understanding of the sciences basic to the practice of medicine; and
- the work of the College of Medicine Student Wellness Advocate. The student advocate promotes student well-being, self-care, professionalism and informal mentoring opportunities. Through a variety of activities, such as paddleboard yoga, beach volleyball, an outing to the Soaring Eagle Winery and many others, the student advocate provides a nurturing, supportive and uplifting environment for all medical students.

“On behalf of the students, staff and faculty of the UNMC College of Medicine thank you for your tremendous support of the UNMC College of Medicine Innovation Fund. Private support is critical to the success of our medical students, and the impact of your generosity is widespread. We are grateful that you would choose to invest in our students and the future of health care in Nebraska and beyond. Your support allows our students the experiences and opportunities needed to become extraordinary physicians. Please accept my sincere appreciation for all you do to advance the UNMC College of Medicine.”

Bradley Britigan, MD  
Dean, UNMC College of Medicine
