Vice Chair & Division Chief – Pediatric Anesthesiology

The Department of Anesthesiology at the University of Nebraska College of Medicine and Children’s Hospital & Medical Center are searching for a Vice Chair & Division Chief of Pediatric Anesthesiology.

The successful applicant will be a leader in a multispecialty integrated pediatric academic healthcare system who is responsible to develop and implement the clinical, educational, research, and advocacy goals of Children’s Hospital & Medical Center (Children’s) and the Department of Anesthesiology at the University of Nebraska Medical Center (UNMC). An Institutional Affiliation Agreement between UNMC and Children’s aligns the two organizations and allows a shared vision for the future of pediatric health care while ensuring children have access to world-class clinical care, treatments influenced by cutting-edge research, and a future generation of well-educated and highly trained medical professionals.

The successful candidate will be Board Certified in Pediatric Anesthesiology with administrative, academic and clinical practice management experience within a complex, pediatric tertiary care center. She/he will oversee a division of 24 board certified pediatric anesthesiologists providing clinical care (approximately 15,000 anesthetics per year) and education on three campuses (Children’s, UNMC, and Outpatient Surgery Center). The division has a well-established ACGME pediatric anesthesiology fellowship and a GME approved Pediatric Cardiac Anesthesiology Fellowship. Research interests are strongly desired and supported. The department has several basic science labs focused on preclinical research with both intramural and extramural grant funding. All anesthesiologists hold faculty appointments at the University of Nebraska College of Medicine and the applicant should have credentials commensurate with the rank of Associate Professor or Professor.

Children’s is the only full-service, free standing pediatric health care center in Nebraska, providing expertise in more than 50 pediatric specialty services to children across a five-state region and beyond. Children’s is home to Nebraska’s only Level IV regional NICU and the state’s only Level II Pediatric Trauma Center. A regional heart center (ranked #15 in US News and World Report for 2018), it also offers expertise in pediatric heart transplantation. Opening in 2021, the new Hubbard Center for Children will be home to an additional 100 patient beds, an expanded NICU, a dedicated Cardiac Care Unit, a new Cancer & Blood Disorders Unit, expanded surgical space including intra-operative MRI, an expanded Radiology and Emergency Department and more. The Child Health Research Institute was established in 2017 and aims to assist investigators with start-up funding and infrastructure for clinical, basic science or translational research. Children’s is recognized as a 2019-20 Best Children’s Hospital by U.S. News & World Report in five pediatric specialties: Cardiology and Heart Surgery, Pulmonology, Gastroenterology & GI Surgery, Orthopedics, and Diabetes & Endocrine Disorders.

With a population of more than 925,000, Omaha offers all the amenities of a big city with the warmth of the Midwest. The area is rich in arts and cultural activities and is home to a world-class zoo that appeals to children and adults alike. Greater Omaha has an outstanding educational system of public and private schools and is home to numerous universities and colleges. In addition to the many collegiate sports, Omaha hosts the Olympic Swim Trials, the Olympic Curling Trials and the College World Series. All of this, combined with a diverse economy with multiple Fortune 500 companies, makes for an extraordinary quality of life.
