Nick Szubiak has over 15 years of experience in direct service, administration and clinical supervision. As Integrated Health Consultant for the National Council, he provides technical assistance, consultation, and training toward the integration of behavioral health and primary care, SBIRT, and substance use treatment such as medication-assisted treatment (MAT), and helps organizations utilize data to improve clinical outcomes. His expertise involves systems change management, with emphasis around the integration of primary and behavioral health care and substance use, and leadership development and supervisory skills. Nick’s training experience fosters both primary care and substance use and behavioral health care providers’ successful adaption to clinical and organizational culture change. Nick is an adjunct professor at the University of Hawaii, Myron B. Thomas School of Social Work. He earned his Master’s Degree in Social Work from Rutgers University.

Dr. Andrea Weber is board certified in internal medicine and psychiatry and currently employed as a Clinical Assistant Professor of Internal Medicine and Psychiatry at the University of Iowa. She has a strong interest in using her combined training to care for marginalized populations, specializing in taking care of people who use drugs and have substance use disorders. She is also active in medical education, obtaining her Masters in Medical Education from the University of Iowa. She currently serves as the Assistant Program Director of the Internal Medicine-Psychiatry residency program, the Assistant Director of Addiction Medicine, and the substance use curriculum director for the psychiatry residency training program. She is a member of the Board of Directors for the Iowa Harm Reduction Coalition, a non-profit organization in central and eastern Iowa focusing on health equity for people who use drugs and engage in sex work.
