

Statistical Brief

Geographic Distribution and Demographic
Characteristics of Behavioral Health
Providers in Nebraska 2010-2016:

Region 2

Shinobu Watanabe-Galloway, Zaeema Naveed, Caleb Adejoh,
Marlene Deras, and Ellana Haakenstad

October 2017

Aim:

To describe the current distribution and demographic characteristics of behavioral health providers actively practicing in Behavioral Health Region 2 in Nebraska.

Behavioral Health Region 2:

Region 2 includes the following counties: Arthur, Chase, Dawson, Dundy, Frontier, Gosper, Grant, Hayes, Hitchcock, Hooker, Keith, Lincoln, Logan, McPherson, Perkins, Red Willow, and Thomas.

Behavioral Health Providers Included in this Brief:

- An “actively practicing” provider is one who is currently (at the time of data collection) practicing in and providing behavioral health services to the people of Nebraska.
- Psychiatrists: Physicians who are board-certified by the American Osteopathic Board of Neurology and Psychiatry or by the American Osteopathic Board of Neurology and Psychiatry and board-eligible.
- Advanced Practice Registered Nurses (APRNs) practicing psychiatry: APRNs who self-identified psychiatry as their practice specialty. Includes both those who are and are not board-certified in psychiatry.
- Physician Assistants (PAs) practicing psychiatry: PAs who self-identified psychiatry as their practice specialty.
- Psychologists: Individuals who hold a license to practice psychology.
- Licensed Independent Mental Health Practitioners (LIMHPs): Individuals who are licensed as an independent mental health practitioner. They provide assessment, treatment, and counseling with or without consultation with a qualified physician or licensed psychologist.
- Licensed Mental Health Practitioners (LMHPs): Individuals who are licensed as a mental health practitioner. They provide treatment, assessment, psychotherapy, counseling, or equivalent activities for behavioral, cognitive, social, mental, or emotional disorders.
- Licensed Alcohol and Drug Counselors (LADCs): Individuals who are licensed as an alcohol and drug counselor. Include providers who may have a dual license i.e. LADC and Certified Disordered Gambling Counselor (CDGC).

Data Source:

This study used the University of Nebraska Medical Center, College of Public Health, and Health Professions Tracking Service (HPTS) database over the span of 2010-2016.

Overview of Behavioral Health Workforce Supply in 2016 (Table 1):

Table 1 compares the behavioral health workforce supply between 2014 and 2016. The total number of providers actively practicing in Region 2 slightly increased from 84 in 2014 to 86 in 2016. The total number of psychiatric prescribers decreased from 6 to 4. The total number of non-prescribers increased from 78 to 82. Tables 2 and 3 show the number of providers practicing in Region 2 based on their primary and satellite locations. These numbers do not add up to the numbers shown in Table 1 because some providers have multiple practice locations. Figures 1 and 2 display the geographic distributions of the psychiatric prescribers and non-prescribers in Region 2.

Table 1. Behavioral health providers actively practicing in Nebraska: 2014 & 2016¹

Provider Type	2014 - Nebraska Behavioral Health Region ²						Total
	1	2	3	4	5	6

Grand Total	70	86	284	167	739	1223	2569

1. Providers may hold more than one license type. Individuals are counted only once in the highest level category.
2. If the provider practices in more than one location, the first Nebraska practice location county provided in the survey was used.

Table 2. The number of behavioral health providers actively practicing in Region 2 based on primary locations: 2016

County	Psychiatrists	APRNs Practicing Psychiatry	PAs Practicing Psychiatry	Psychologists	LIMHPs	LMHPs	LADCs	Total
Arthur	0	0	0	0	0	0	0	0

Figure 1. Primary and satellite locations of psychiatric prescribers in Region 2: 2016

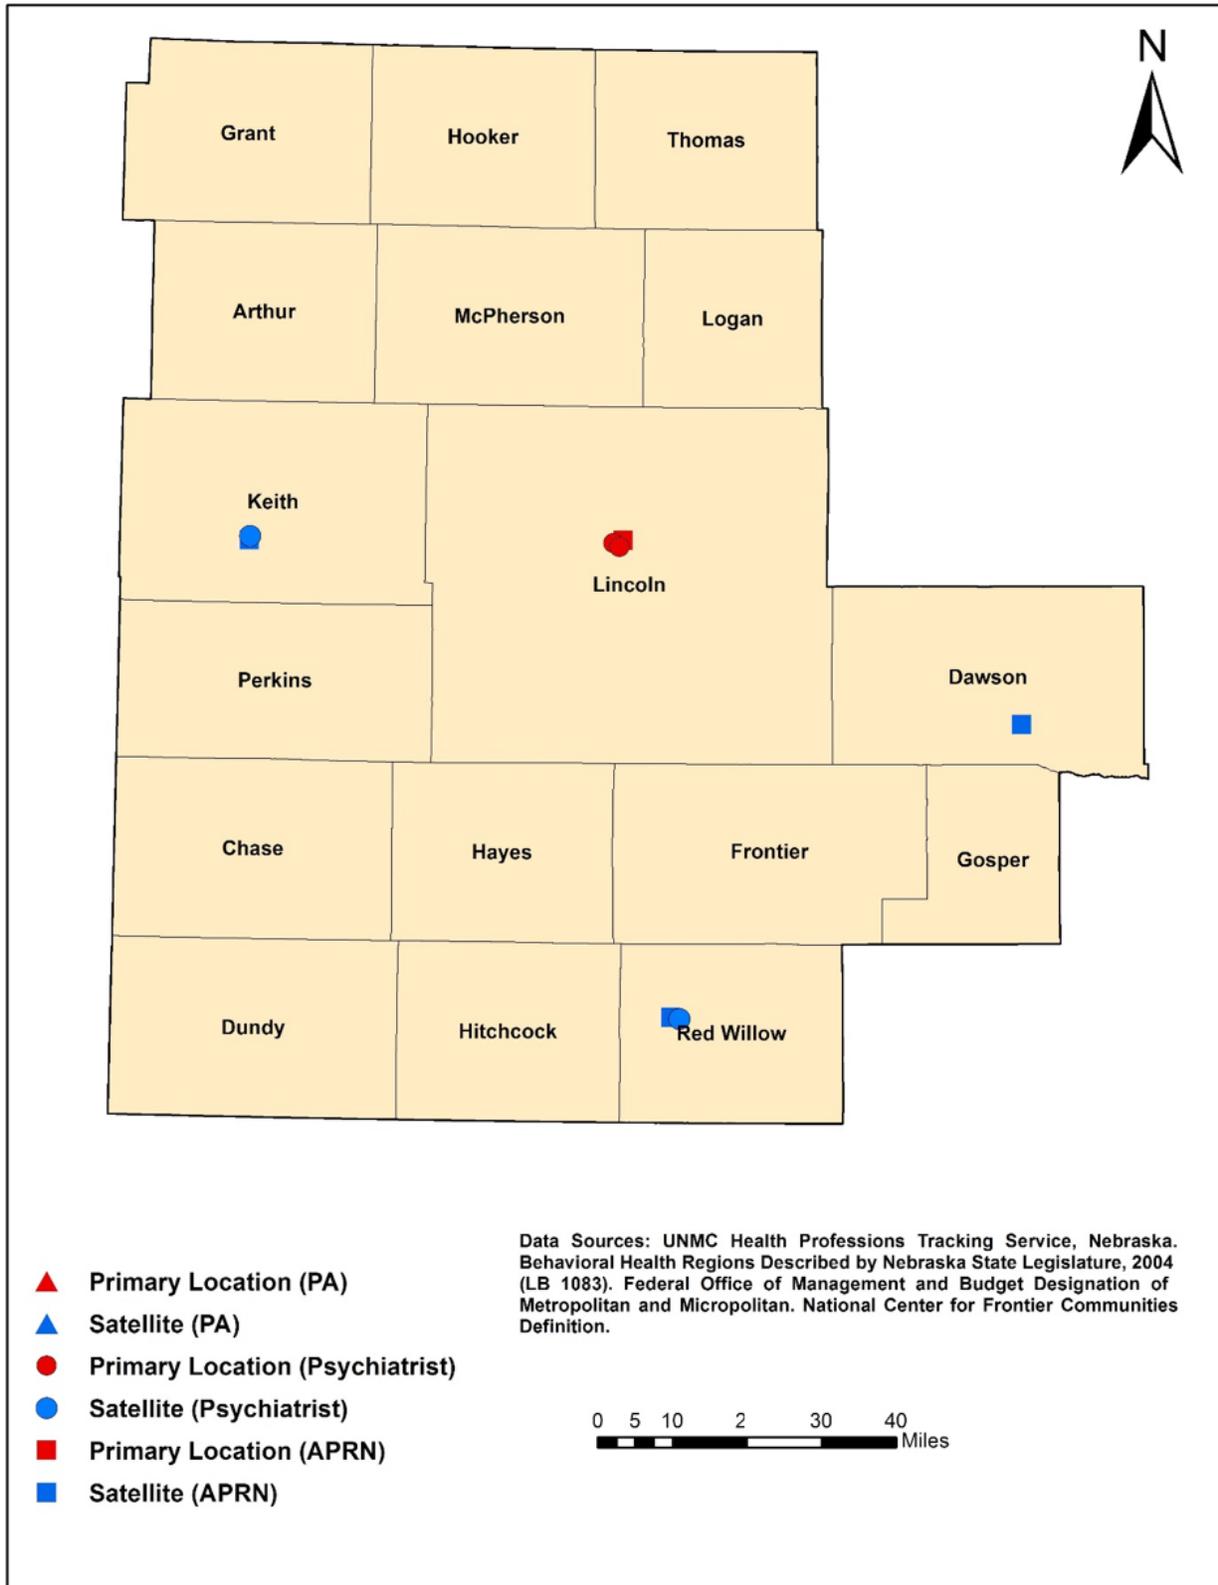

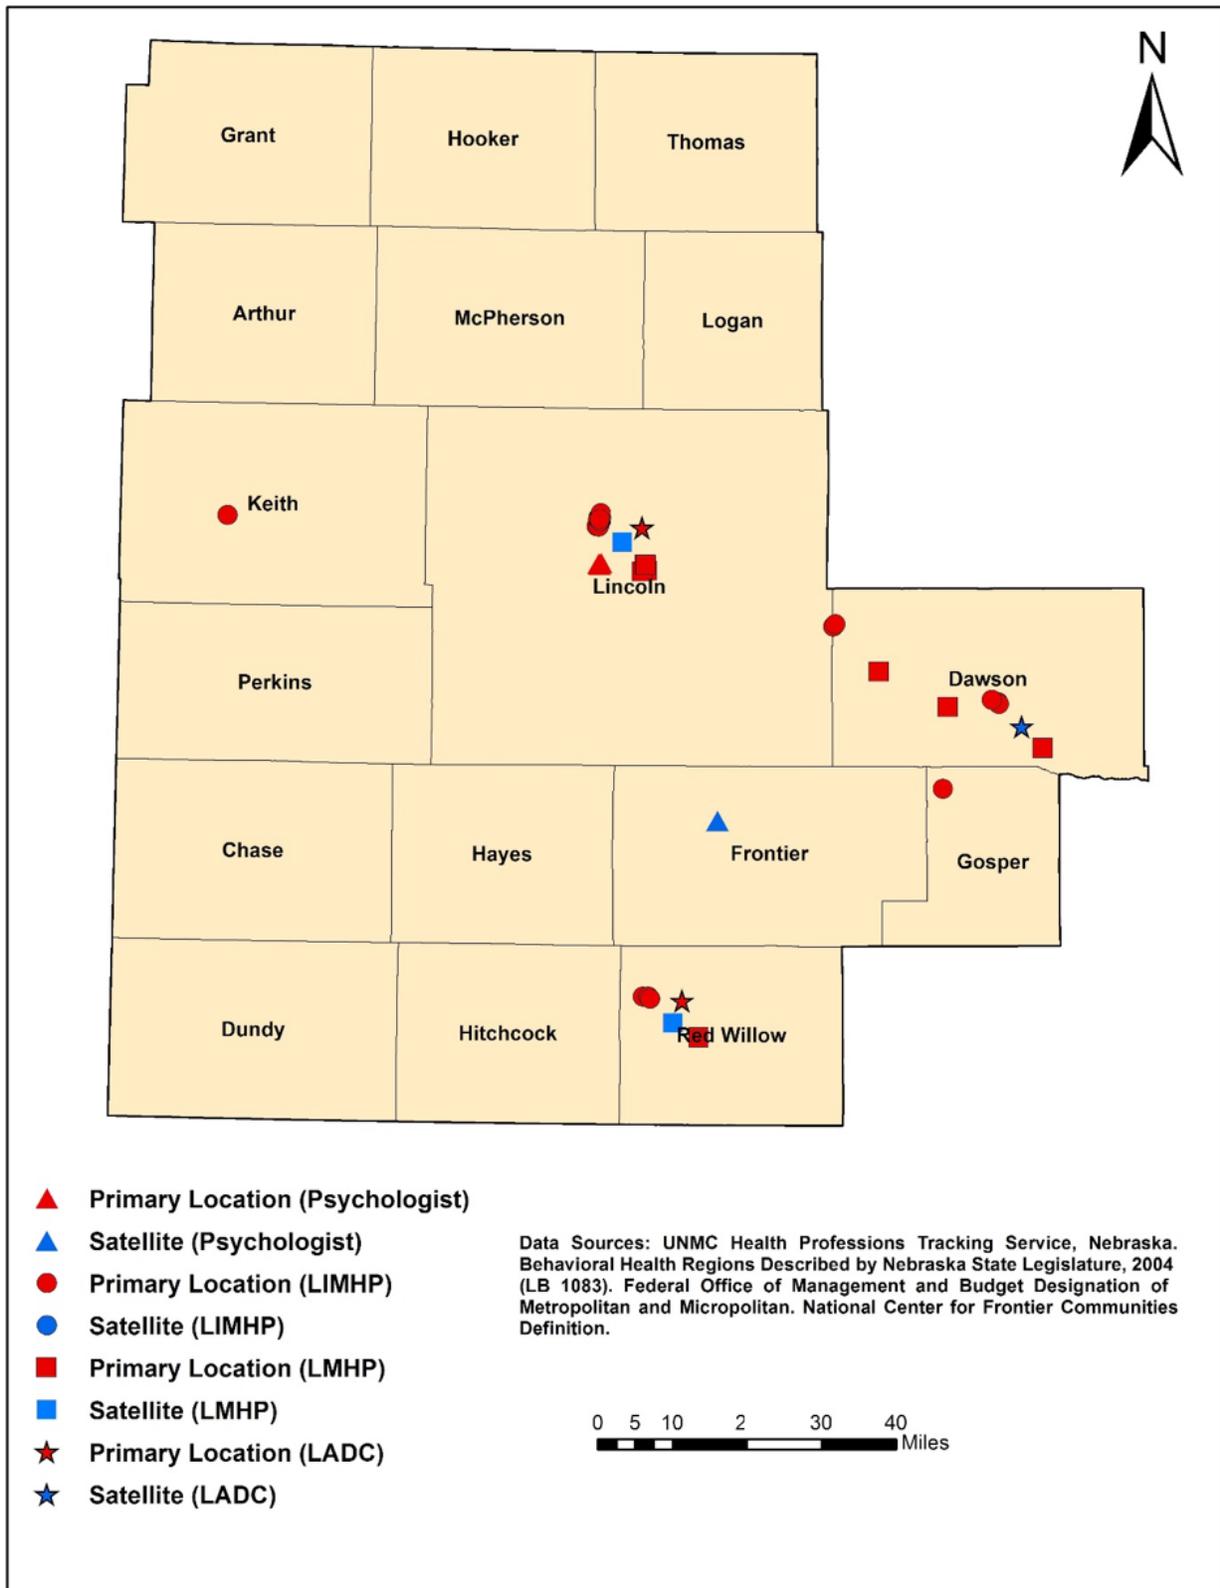

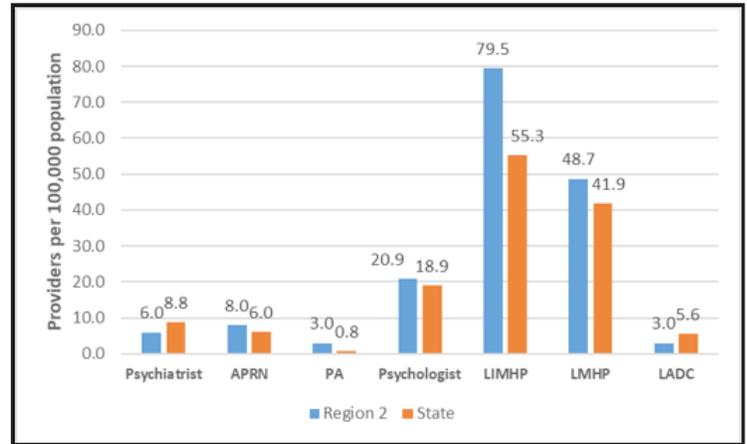

Figure 2. Primary and satellite locations of non-prescribers in Region 2: 2016

The Number of Providers per 100,000 Residents (Figure 3):

Region 2 had a lower number of psychiatrists per 100,000 residents (6.0 vs. 8.8) and LADCs per 100,000 residents (3.0 vs. 5.6) compared to the state overall. However, the number of providers per 100,000 residents for other provider types was higher in Region 2 compared to the state overall. For example, there were 79.5 LIMHPs per 100,000 residents in Region 2 compared to the state average of 55.3 LIMHPs per 100,000 residents.

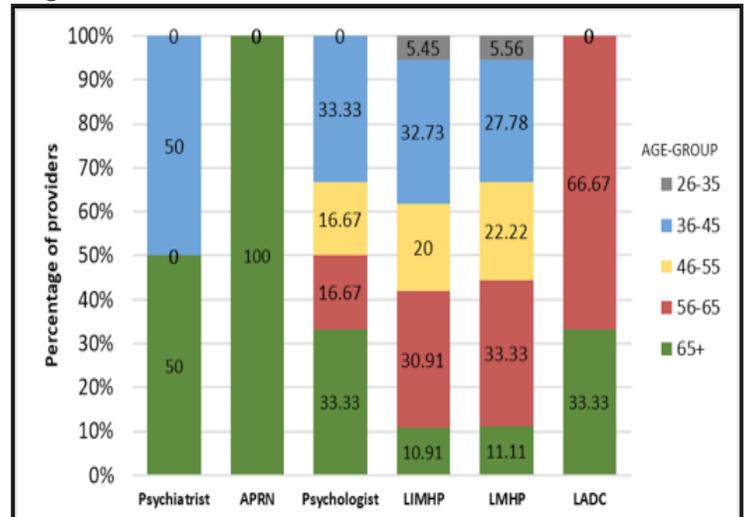

Figure 3. Number of Providers per 100,000 Population Region 2 and Nebraska Overall 2016

Age of Providers (Figure 4):

The aging behavioral health workforce is an issue in Nebraska and in the US overall. All of the APRNs and half of the psychiatrists actively practicing in Region 2 in 2016 were 65 years or older.

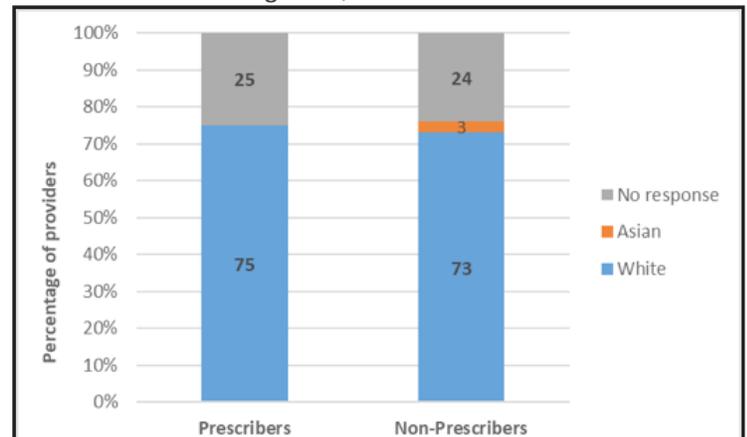

Figure 4. Age Distribution of Behavioral Health Providers Region 2, Nebraska 2016

Race and Ethnicity of Providers (Figure 5):

60% of prescribers (psychiatrists and APRNs) actively practicing in Region 2 in 2016 self-identified as white and 40% as Asian. 88% of non-prescribers (psychologists, LIMHPs, LMHPs, and LADCs) actively practicing in Region 2 in 2016 self-identified as white.

Figure 5. Race & Ethnicity Distribution of Behavioral Health Providers Region 2, Nebraska 2016

Patient Age (Figure 6):

The HPTS survey asks the providers to indicate the age group(s) of patients they see. Adults and young adults comprise the majority age group of patients seen in Region 2. Note that providers can indicate more than one age categories.

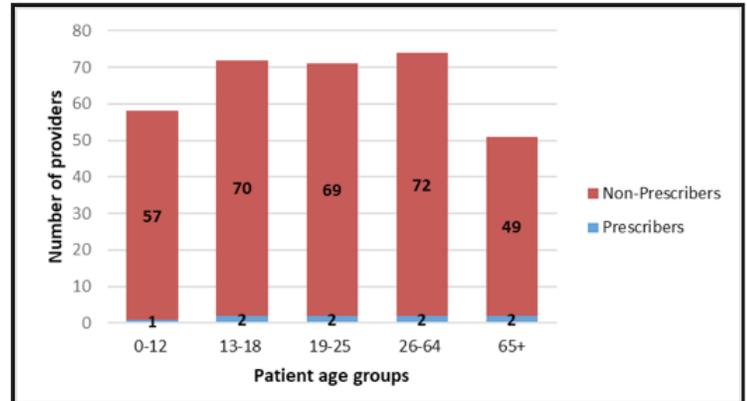

Language Services (Figure 7):

None of the prescribers in Region 2 reported serving people who spoke languages other than English.

Thirty-six non-prescribers reported serving people who spoke languages other than English. Of those, 2 indicated that they spoke the language (self-interpreter). Of the 36 non-prescribers who reported serving people who spoke languages other than English, 30 used in-person interpreters and 9 used a phone interpreter service.

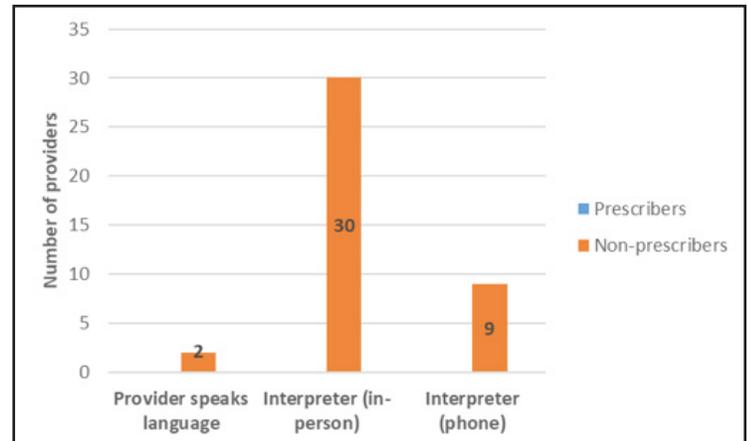

Of those non-prescribers who reported serving people who spoke languages other than English, 29 providers indicated that they served clients who spoke Spanish.
