About BHECN

The Behavioral Health Education Center of Nebraska (BHECN), pronounced "beacon", was established in 2009 by a legislative bill to address the shortage of behavioral health professionals in rural and underserved areas of the state.

unmc.edu/bhecn

MISSION: BHECN is dedicated to improving access to behavioral health care across the state of Nebraska by developing a skilled and passionate workforce.

Announcements

- · Attendees are muted
- To ask a question, please type it in to the "Questions" box in your GoToWebinar control panel
- Slides are available to download in "Handouts" section of control panel
- Please complete survey after the webinar
- This webinar is worth one social work CEU. I will email evaluations after the webinar.

Sexual Development	
Framework for discussing sexual development Norms – what's common Normal – what's acceptable	
Normative – what's desirableConcerns – what may be problematic	
	-
	٦
Sexual Development	
 Framework for discussing sexual development Most people masturbate Both masturbating and not masturbating are healthy and there are no negative side effects 	
 Masturbation should be done in private, either alone or with consenting partners We're concerned when masturbation is excessive, compulsive, or the only method of coping 	
sompaisive, or the only method of coping	
	J

∅ UNIVERSITY OF NEBRASKA AT OMAHA]
Sexual Development	
Early Childhood – normal & normative • Learning the pleasure of touch • Intimacy & attachment • Developing & expressing gender & sexual identities • Curiosity about their bodies and others • Touching & rubbing is common • Self, peer, & near-peer exploration is common	
]
Sexual Development	
Early Childhood - concerns Lack of basic "good enough" nurturing from parents Lack of information about one's sexuality latency Fear, shame, or guilt about one's sexuality, gender, body, appearance "Excessive" preoccupation with sexuality, sexual behaviors, or molesting others	
() UNIVERSITY OF NEBRASKA AT OMAHA	
Sexual Development	
Adolescents & Young Adults – normal & normative • Puberty and rapid physical development • Differentiation from family of origin	
 Developing & expressing gender & sexual identities Continued sexual exploration with self & peers Developing intimate relationships 	
	J

UNIVERSITY OF NEBRASKA AT OMAHA	7
Sexual Development	
Adolescents & Young Adults - concerns • Fear, shame, confusion about one's sexuality, gender, body, or appearance • Isolation, anxiety, depression, eating disorders, etc. • Lack of accurate, inclusive, & affirming information • Lack of access to sexual health services • Exploitative sexual behaviors • Problematic relationships • High sexual risk-taking	
∅ UNIVERSITY OF NEBRASKA AT OMAHA	7
Sexual Development	
Young, Middle, & Older Adults – normal & normative • Developing & maintaining intimate relationships • Changing relationships • Development through family life cycles • Changes in physical sexual functioning	
🕖 UNIVERSITY OF NEBRASKA AT OMAHA	
Sexual Development	
Young, Middle, & Older Adults – concerns • All of the previous concerns • Concerns developing or committing to intimate relationships • Concerns maintaining intimate relationships • Concerns with changing relationships or loss of relationships • Concerns with addressing and adapting to changes in sexual functioning	

Sexual Challenges • Medications, Illness, Disability • Pregnancy & Infertility • Body Changes • Normal physical aging

Quick Case Study Glenda is a 63 year old high school teacher; her husband of 40 years died suddenly last winter. Glenda recently began dating Jim, aged 55, and is considering having a sexual relationship with him. Her only	
sexual experience has been with her husband, and she is concerned about the changes in her body from aging, and her use of medications for hypertension in regard to sexual desire and enjoyment. She asks you for an appointment to discuss these issues	
and for resources she could access.
