Poll Everywhere Canvas Integration

1. Navigate to: polleverywhere.com/lms/canvas/connections

2. Login to Poll Everywhere; the following will be displayed:

   ![Connect to LMS](image1)

   - Select Canvas connection type:
     - Free-For-Teachers account at canvas.instructure.com
     - Canvas Network account at learn.canvas.net
     - Add new institutional hosted Canvas solution

   Canvas accounts available for your institution:
   https://canvas.polleverywhere.com

3. Click the Login link located under “Canvas accounts for your institution:”

4. Click “Authorize” button

5. Click the “Login” link located under “Your available Canvas logins:”
6. Click the checkbox to select the desired course(s):

![Connect to LMS](image)

7. Click the “Continue” button

8. The “LMS connection I progress!” should be displayed:

![Connect to LMS](image)

Remember to set polls to allow [Registered participants only](#), so you can identify them in Gradebook and reports.

9. Click “Got It” button
Gradebook Export

In order to export grades from Poll Everywhere to Canvas, a gradebook report in Poll Everywhere must be created first. Refer to our blog post for more information on creating gradebook reports: polleverywhere.com/blog/whats-in-a-gradebook.

Once your report is created, you can find the link “Export to Canvas” in the lower right hand corner of the page. Follow the instructions presented on the screen – Poll Everywhere will then create a new assignment for your course which you can then view in your course’s Canvas gradebook.
