

Nebraska Perinatal Quality Improvement Collaborative
2022 NPQIC Fall Summit

REGISTER NOW »

JOIN US. Wednesday, Nov. 9 | 7:45 a.m. – 4:30 p.m.

The opportunity to reduce perinatal mortality and morbidity exists in Nebraska, however, the systems in place are not always effective. There are times when obstetric care does not ensure pregnant women receive the risk-appropriate care that is specific to their health needs. Having an effective health care team can improve breastfeeding practices, management of perinatal mental health disorders, diagnosis of maternal early warning signs, and optimization of care. Perinatal stakeholders from across the state will meet in person at the [2022 NPQIC Fall Summit](#) to learn how to implement evidence-based practices and improve perinatal outcomes.

TARGET AUDIENCE

This accredited continuing education activity is intended for physicians, advanced practice nurses, and nurse leaders.

SUMMIT DIRECTOR

Ann Anderson-Berry, MD, PhD, FAAP

Professor and Chief, Division of Neonatology, Department of Pediatrics, UNMC; Medical Director, Nebraska Perinatal Quality Improvement Collaborative

SUMMIT VENUE

Younes Conference Center South
 416 W. Talmadge Street, Kearney, NE 68845
