

## Agricultural Health and Safety Course

FOR MEDICAL AND SAFETY PROFESSIONALS

Register Now

The **Agricultural Health and Safety Course for Medical and Safety Professionals** is designed to examine key health and safety issues specific to rural and agricultural workers. Experts will present course material relevant to those working in health care, public health, education, and safety professions.

### JOIN US!

**Session A: Agricultural Health — July 18-19, 2023**

**Session B: Agricultural Safety and Prevention — July 20-21, 2023**

**Session C: Special Topics — online modules available July 18 - Aug. 11, 2023**

As a way of saying thank you to rural and urban health care providers, emergency services personnel, and those who provide other essential services to our communities, **this course is offered free of charge. However, registration is required.**

You may choose to participate in any or all of the three sessions. For Sessions A and B, you may join us in person or via live stream while Session C consists of online modules that you may complete at your own pace.
