

# New Directions for Concussion Care: Early, Often and Active

[REGISTER NOW »](#)

**JOIN US. Friday, July 14 from 8 a.m. – 4:30 p.m.**

The **New Directions for Concussion Care: Early, Often and Active** will facilitate interdisciplinary discussion among concussion care providers. We will examine the constantly changing field of clinical concussion research and discuss how to apply new research to clinical practice. We will delve into evidence-based concussion care, case studies, and other practical applications to assist providers in integrating the latest guidelines into their practice.

#### TARGET AUDIENCE

This accredited continuing education activity is designed for psychologists, professional counselors, mental health providers, social workers, athletic trainers, physicians, advanced practice providers, urgent care providers, occupational therapists, physical therapists, speech pathologists, emergency medical services professionals, and students.
