A Symposium Sponsored by the Fred & Pamela Buffett Cancer Center

3rd ANNUAL

Cancer Risk and Prevention

Symposium

Friday, Feb. 23, 2024

In Person: UNMC Truhlsen Campus Events Center

619 S 42nd Street, Omaha, NE 68198

Live Stream: via Zoom

This symposium is designed to highlight the field of cancer prevention by bringing health care professionals and researchers together for a multidisciplinary discussion. Main conference topics will include access to cancer screenings in rural populations, universal genetic testing, multi-cancer detection tests, early onset colon cancer, and the psychosocial impact of hereditary cancer. Additional breakout topics for clinicians and researchers include hereditary endocrine cancer syndromes, hereditary pediatric cancer syndromes, whole-body MRI for screening, latest research, and lightning poster presentations.

TARGET AUDIENCE

This accredited continuing education activity is designed for primary care/internal medicine providers, advanced practice providers, genetic counselors, nurses, scientists, and other members of cancer research teams who have an interest in familial cancer, hereditary cancer syndromes, and cancer prevention.

SYMPOSIUM OBJECTIVES

At the conclusion of this activity, the participants should be better able to:

- 1. Review emerging topics and research in cancer risk and prevention.
- 2. Identify patients who are at increased risk for cancer related to a family history of cancer or genetic mutations.
- 3. Discuss opportunities to bridge health care providers and cancer researchers to progress the science of cancer risk and prevention.

CONTINUING EDUCATION CREDITS

In support of improving patient care, University of Nebraska Medical Center is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

This live activity has been approved for AMA PRA Category 1 CreditsTM. This activity has been approved for ANCC contact hours.

- Understanding the Disadvantages for Rural Populations and Cancer Screenings
- Multi-Cancer Early Detection Tests
- Pros vs. Cons of Universal Genetic Testing
- Early Onset Colon Cancer
- Psychosocial Impact of Hereditary Cancer
- Hereditary Endocrine Cancer Syndromes
- Hereditary Pediatric Cancer Syndromes
- Lung Cancer Research
- Thyroid Cancer Research
- Whole-Body MRI Screening

REGISTRATION INFORMATION

Register Fees

- Physicians \$100
- Other health care professionals \$50
- UNMC/Nebraska Medicine employees FREE
