

The **Agricultural Health and Safety Course for Medical and Safety Professionals** is designed to examine key health and safety issues specific to rural and agricultural workers. Experts will present course material relevant to those working in health care, public health, education, and safety professions.

JOIN US!

Session A: Agricultural Health — July 8-9, 2025

Session B: Agricultural Safety and Prevention — July 10-11, 2025

Session C: Special Topics — online modules available July 8 - Aug. 8, 2025

To show our heartfelt appreciation for the incredible work of rural and urban health care providers, emergency services personnel, and all those who deliver essential services to our communities, **we're offering this course completely free of charge.** All we ask is that you **register to reserve your spot**—we'd be honored to have you join us.

You may choose to participate in any or all of the three sessions. For Sessions A and B, you may join us in person or via live stream while Session C consists of online modules that you may complete at your own pace.
