

**10th Annual
NPQIC Fall Summit**
A Decade of Dedication—Advancing Excellence
in Perinatal Care

REGISTER NOW »

Celebrate 10 Years of Progress in Maternal & Newborn Health!

Join the Nebraska Perinatal Quality Improvement Collaborative (NPQIC) on **Friday, September 12**, for the 10th Annual Fall Summit — a milestone event focused on advancing perinatal care across Nebraska.

This year's Summit highlights critical topics including obstetric hemorrhage, amniotic fluid embolism, birth trauma, perinatal mental health, substance use disorders, and syphilis. Expert-led sessions will equip you with strategies to manage serious complications while addressing the emotional impact on patients, families, and care teams.

Learn how patient and community engagement drives care improvement, hear firsthand experiences, and connect with perinatal professionals from across the state. Don't miss this opportunity to network, grow, and help shape the future of perinatal care.

In partnership with the Sterle Family, NPQIC is hosting a screening of 24 Days Without You. Follow Annie and Tony Sterle's journey through an amniotic fluid embolism (AFE) during the birth of their first child, set against the backdrop of the early COVID-19 lockdown.

TARGET AUDIENCE

This accredited continuing education activity is designed for physicians, advanced practice providers, and nurse leaders.

LOCATION

UNO Scott Conference Center
6450 Pine Street, Omaha, NE 68106

TEXT

Ann Anderson Berry, MD, PhD, FAAP

Professor and Chief, Division of Neonatology, Department of Pediatrics, UNMC; Medical Director, NPQIC
