

POST-TRAUMATIC STRESS DISORDER

PTSD

Diagnosis, Treatment, and Emerging Therapies

REGISTER NOW »

JOIN US! Friday, June 6 • 8:00 a.m. – 4:30 p.m.

The **PTSD: Diagnosis, Treatment, and Emerging Therapies** symposium, presented by the University of Nebraska Medical Center (UNMC) Department of Neurological Sciences, will bring together leading experts in psychiatry, psychology, pharmacology, and neuroimaging. Attendees can expect in-depth discussions on the latest advancements in post-traumatic stress disorder (PTSD) research and treatment. Key topics include:

- The Complexity of the PTSD Diagnosis: What to Know
- An Overview of Cognitive Behavioral Therapies: Efficacy and Techniques for PTSD
- PTSD in Veterans
- Prolonged Exposure for Combat-Related PTSD: 20 Years of Progress
- New Frontiers in the Treatment of PTSD
- Fear and Anxiety: Neural Circuits in PTSD

This symposium offers a unique opportunity for professionals to engage with the forefront of PTSD research and treatment, and to collaborate on advancing care practices.
