

BLS

BASIC LIFE SUPPORT

Basic Life Support (BLS) is a nationally recognized program designed by the American Heart Association (AHA) for health care professionals to recognize several life-threatening emergencies, provide CPR, use an automated external defibrillator (AED), and relieve choking in a safe, timely, and effective manner. This course is intended for certified or non-certified, licensed or non-licensed health care professionals such as physicians, nurses, paramedics, emergency medical technicians, respiratory therapists, physical and occupational therapists, physician assistants, residents or fellows, medical or nursing students in training, aides, medical or nursing assistants, police officers, and other allied health personnel. The material will be covered in small group lectures, demonstrations, evaluation of case-based scenarios, and practice.
