Admission Requirements
for the
UNMC Clinical Translational Research Mentored Scholars Program (K12)

The CTR Mentored Scholars Program is administered through the Medical Sciences Interdepartmental Area (MSIA). The Medical Sciences Interdepartmental Area (MSIA) Graduate Program of the University of Nebraska Medical Center (UNMC) allows a student to pursue graduate education in the research area of an adviser in one of the participating departments leading to the Master of Science or Doctor of Philosophy degree.

Eligibility

1. The applicant must hold or will be holding a faculty or equivalent appointment at any Colleges at UNMC at the time of admission to the program. Junior faculty (MD or PhD) with a rank of Instructor or Assistant Professor shall be given preference.
2. The applicant must meet all admissions requirements set by the UNMC Graduate School.

Application Process

Application to the program is done centrally through the UNMC Office of Graduate Studies, UniCAS application. (https://unmc.liaisoncas.com/applicant-ux/#/login)

Fees

Fees that may be applicable to CTR Mentored Scholar Program students can be found on the Office of Graduate Studies website under Admissions (Tuition & Fees).
