

## **Prehospital Medicine EMET**

Director: Joseph Lippert, MD, NRP – Assistant Professor of Emergency Medicine

### Goals and Objectives:

- Augment medical student education with lectures, discussions, and labs regarding clinical application in the pre-hospital and wilderness environments.
- Acquire a proficient knowledge of the roles and responsibilities of pre-hospital providers
- Obtain a basic understanding of EMS Medical Direction and the roles of EMS physicians
- Provide immersive clinical opportunities with ridealongs with multiple EMS agencies including Omaha Fire Department, Bellevue Fire Department, and Children's Hospital
- Provide exposure to emergency medical dispatch with shadowing experience with Douglas and Sarpy County Dispatch Centers
- Complete a capstone project relating to research/education/advancement of prehospital medicine.

### Activities/Opportunities

- Monthly meetings relating to medical education and its application in the prehospital environment
- Skill labs covering EMS topics
- Ridealongs with EMS agencies
- Event medicine opportunities
- Mass Casualty Drills
- Prehospital provider education

### First monthly meeting Nov 2022

- Out of Hospital Obstetrical Emergencies Discussion and Simulation
- History of EMS
