

# Installing DUO Two-Factor Authentication

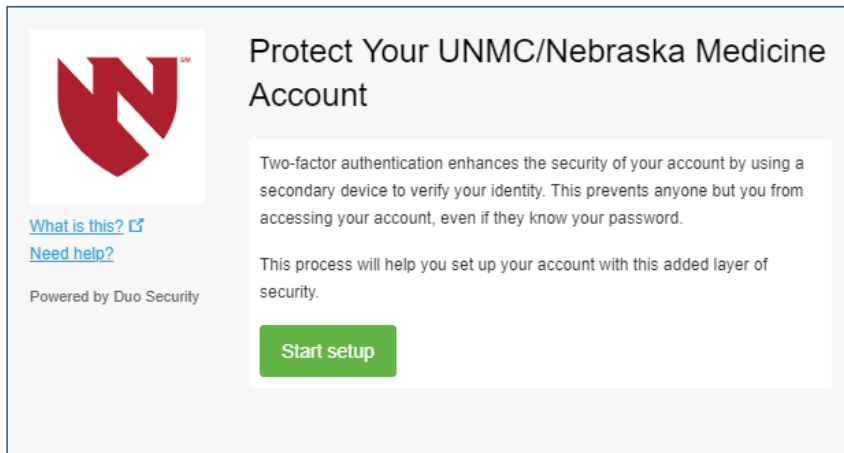

**\*You must install Duo on campus**

-Navigate to <https://identity.nebraskamed.com/ddmp/>

-Login with UNMC Active Directory credentials (what you would use to log into a UNMC computer)

-Click start setup

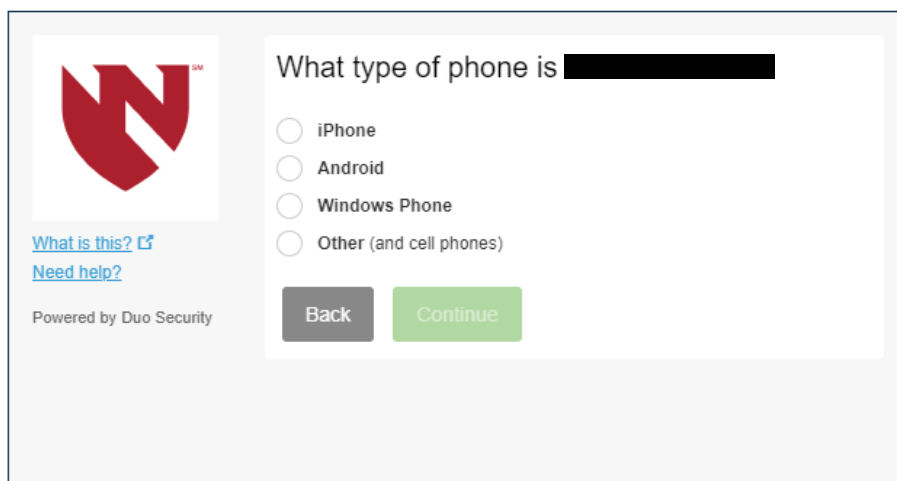

## Duo Authentication

The screenshot shows the Duo Authentication setup page. On the left is the UNMC logo. The main heading is "Protect Your UNMC/Nebraska Medicine Account". Below the heading is a text box explaining that two-factor authentication enhances security by using a secondary device. There are links for "What is this?" and "Need help?". At the bottom left, it says "Powered by Duo Security". A green "Start setup" button is centered at the bottom.

-Check mobile and enter your phone number

-Select your phone OS

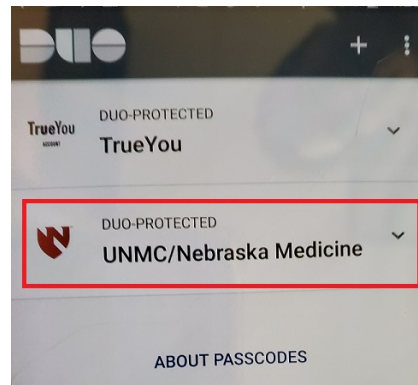

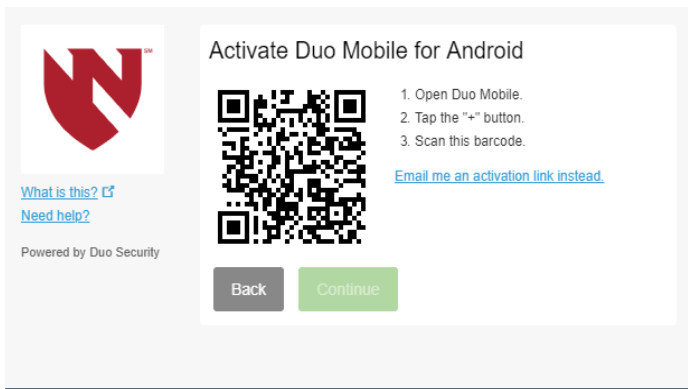

The screenshot shows the Duo Authentication setup page asking for the phone type. The heading is "What type of phone is [redacted]". There are four radio button options: "iPhone", "Android", "Windows Phone", and "Other (and cell phones)". At the bottom are "Back" and "Continue" buttons. The UNMC logo and "Powered by Duo Security" are on the left.

-Install DUO on your phone from the app store, if you haven't already

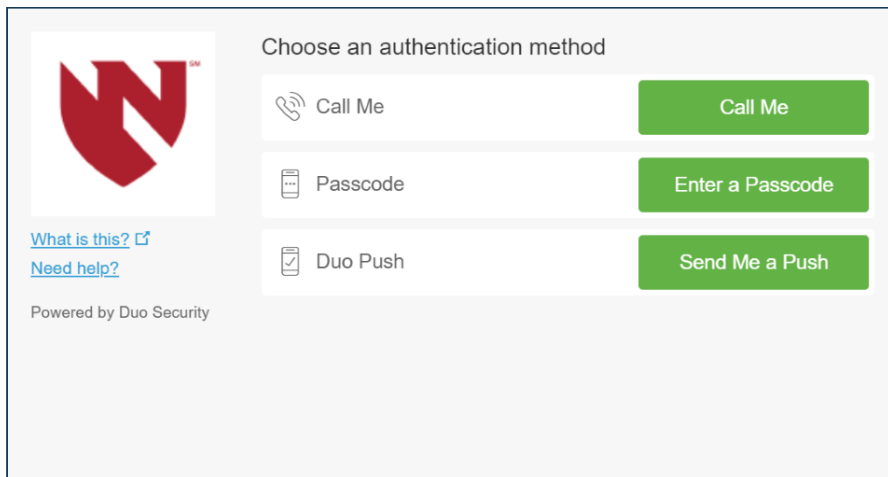

-Hit the + button on the app

-Take a picture of the QR code with your phone

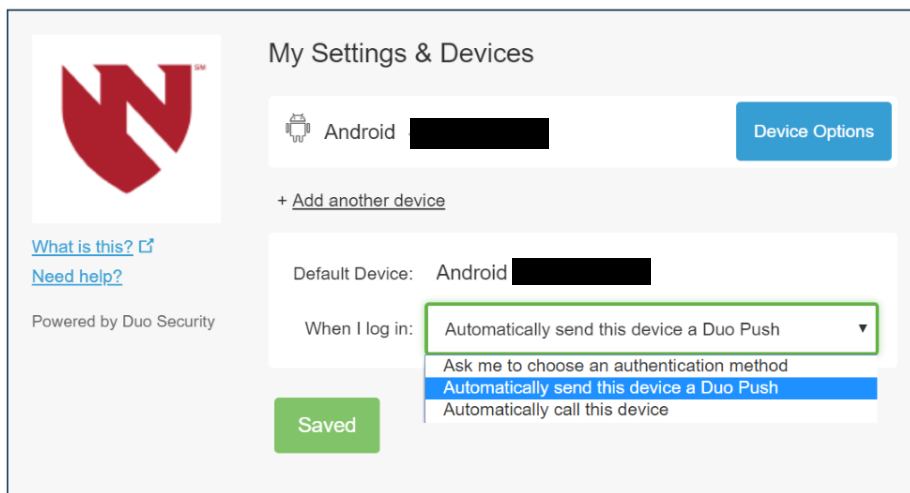

You should now be signed up for DUO mobile UNMC and have two icons on your app as shown

## Set up Duo for Automatic Push Notifications to your phone (optional)

- Click dismiss then "Send Me a Push"

-From the dropdown select "Automatically send this device" a duo push then save
