

## Joint Provider Live Webinar Series

### Implant Dental Malpractice: Avoiding the Inevitable

**Date & Time:** Thursday, November 3, 2022 - 8:00 PM (EST), 7:00 PM (CST), 5:00 PM (PST)

**University:** University of California San Francisco

**CE contact name & email:** Melissa Fung - [Melissa.Fung@ucsf.edu](mailto:Melissa.Fung@ucsf.edu)

**Location:** Zoom Webinar

**Audience:** General Dentist, Periodontists, Oral and Maxillofacial Surgeons and Endodontists

**Format:** Lecture

**CE Credit:** 1.5

**Tuition:** \$59

#### Course Description:

Surgical placement of dental implants have become a significant part of many dental practitioners, specialist and generalists with all surgical procedures that can be risk of complications. However, with recent technological advances in imaging and planning, those risks have been significantly reduced to the point that failure to employ such systems is being considered evidence of substandard care. 3D imaging is directly affecting the recognition, management, and treatment of complications. This program will provide current information on the evolving standards for treatment planning, imaging, recognition and management of complications.

#### Learning Objectives:

At the conclusion of this course, participants will be able to:

1. Demonstrate the evolving standards of care for surgical planning of the placement of implants to avoid or minimize complications.
2. Utilize protocols and systems for the early evaluation of post implant placement complications, injuries, and application of technology.
3. Describe and Institute timely patient management of postsurgical implant complications for improved outcomes and malpractice claims avoidance.

#### Meet the Speaker: Mr. Arthur Curley

**Mr. Curley** is a senior trial attorney in the California healthcare defense firm of Bradley, Curley, Barrabee & Kowalski, PC. After graduating from the University of California, Berkeley with honors in 1970, he obtained his J.D. in 1974 from the [UC Hastings College of the Law in San Francisco](#). He is currently an Assistant Professor of Dental Jurisprudence at the Arthur A. Dugoni School of Dentistry in San Francisco and an Adjunct Faculty Professor at the University of California, San Francisco. As a trial attorney, he has been defending doctors for over 46 years and has presented risk management courses throughout the United States and Canada. He is an associate of the [American Board of Trial Advocates](#). Mr. Curley has published several articles on risk management and authored chapters in numerous textbooks on oral surgery, endodontics and periodontics.
