HAZARDOUS MATERIAL FACT SHEET
Chemical Disposal

All used and unused chemicals must properly be disposed of by submitting a pick-up request to EHS (see section on Chemical Collection Tags below).

Basic Rules for Used Chemical Collection

- Label containers “Chemical Waste” and list chemical contents.
- Use full chemical names (no abbreviations) and list all chemicals and their percentages in the container.
- Choose collection containers that are in good condition, clean and that are compatible with the contents you will be adding (e.g., no acids in metal containers).
- DO NOT place incompatible chemicals in the same container.
- Keep used chemical collection containers closed, except when adding chemical.
- Store used chemical collection containers in secondary containment.
- Separate incompatible chemicals in storage, and store all used chemicals that are flammable in a flammable liquid storage cabinet.

Chemical Collection Tags

When you have chemicals to dispose or your chemical waste collection container is full (or you are no longer adding to it), please complete a Green Chemical Collection Tag. Complete the top half of the tag and secure the tag to the container. Follow the instructions below under Chemical Waste Pick-up Request.
Chemical Waste Pick-up Request
Complete and submit the Chemical Safety Waste Pick-up form online at:
http://app1.unmc.edu/forms/ehs/cso_pickup.cfm

SAMPLE OF ON-LINE CHEMICAL WASTE PICK-UP FORM

Please allow up to 5 working days for waste to be picked up for proper disposal.

Please call 402.559.6356 or email unmcehs@unmc.edu with any questions
