

Testimonials from the 2023 REM Course:

“Great to have a place to network and hear what other rural facilities are doing in particular situations.”

“The lectures were great to get up-to-date on the most current literature and what other facilities are doing.”

“...Loved the hands-on portions... will be back and have already recommended to colleagues in the area!”

Rural Emergency Medicine Course May 8th – 10th, 2024

Registration is Now Open - Space is Limited!

The Rural Emergency Medicine Course is designed for physicians, physician assistants, and nurse practitioners to review low-frequency, high-risk emergencies and practice lifesaving procedures in a realistic, controlled teaching environment. Procedure-based learning will feature cadavers (subject to availability), simulation, and task trainers and include advanced airway management, surgical airways, splinting, intraosseous access, chest tubes, intimate partner violence recognition and treatment, code simulations, neonatal procedures, and ultrasound training.

The goal of this course is to offer diverse learning opportunities related to both adult and pediatric emergencies.

The University of Nebraska Medical Center designates this live activity for a maximum of 20 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
