### 5.5.7 The Outstanding Faculty Mentor of Graduate Students Award

This program is administered by UNMC Faculty Senate. A significant activity in a research university is the education and training of graduate students. At this level of education, the graduate student associates with a faculty member conducting original research. The graduate student and faculty member agree to a mutual relationship whereby the faculty member oversees the student’s selection of graduate class work and guides the dissertation research. In doing so the faculty member assumes the role of mentor thereby exercising significant influence on the current and future performance and attitudes of the student. Because of the profound effects of mentors on graduate students, the UNMC Faculty Senate wishes to institute a merit award, the UNMC Outstanding Faculty Mentor of Graduate Students Award, to recognize faculty who exemplify excellence in the mentoring of graduate students at UNMC. In doing so UNMC wishes to honor these individuals to provide models for other faculty to emulate. The Honorary Degree and Awards Committee (HDAC) bases its selection of recipients for the award on documentation that provides evidence of and a record of continuous accomplishment of mentoring graduate students over a period of at least the last five years.
