Over 100 Summer Health Professions Education Program (SHPEP) scholars and UNMC students, joined iEXCEL and the iEXCEL Student Society for a virtual overview. SHPEP scholars experienced a virtual tour and engaged in discussions about the impact of experiential learning and interprofessional education, and how iEXCEL and the Davis Global Center serve as a resource for innovative learning. The iEXCEL Student Society recruited an interprofessional student panel across all UNMC colleges to share their experiences and provide personal guidance to the SHPEP scholars. iEXCEL has partnered with SHPEP for several years and looks forward to continue to accommodate and connect with this program in new innovative ways.
