You've Been FLOCKED

https://go.unmc.edu/flocking

by Munroe-Meyer Institute & SAPA for
DEVELOPMENTAL DISABILITIES AWARENESS

Congratulations!

You've Been Flocked ☐ ***secretly by a friend!*** ☐ ***by*** _____

Flamingo Flocking is a fundraiser created by the UNMC Munroe-Meyer Institute (MMI) benefitting the UNMC Student Alliance for People of All Abilities (SAPA) to support Disability Awareness. Someone made a donation to place these pink darlings in your yard. This flocking is done in good spirit to support advocacy. These flamingos will roost on your lawn for 2-4 days until they mysteriously migrate to another location. Removal of this flock of flamingos should be attempted only by trained professionals. Fortunately, our Removal Technicians are highly skilled.

Share the fun and spread awareness! Post a photo of your flock on social media & tag us!
Facebook: MunroeMeyerInstitute & unmcsapa | ***Twitter & Instagram:*** unmc_mmi & unmcsapa
Advocacy Tip: Do make your post public & include **#**IveBeenFlocked **#**DDawareness **#**unmcMMI **#**unmcSAPA
Safety Tip: Don't include personal identifiers in the photo (your address/house number or license plates).

Ok, what now?

Ordinarily, this would be your chance to pay it forward, sending the flock to an address of your choice for a $30 donation to SAPA. Or, a $15 donation would send the birds to roost in a location of our technician's choice. Of course, you can always contact our team to have the flock removed for free.

But sadly, our flocking season has ended and we can't accept more flocking requests.

Check our website after the first of next year – and when we are ready to start flocking again, an order form will be available and all the details you need to flock a friend, neighbor or co-worker!
