

## Elopement Devices

### Project Lifesaver

Project Lifesaver is a non-profit organization that provides law enforcement, fire/rescue, and caregivers with a program designed to protect, and when necessary, quickly locate individuals with cognitive disorders who are prone to the life threatening behavior of wandering. This service helps protect people at risk of becoming lost, including those with Alzheimer's, autism, Down syndrome or other cognitive disorders. Clients enrolled in the service will wear a wrist-watch sized radio transmitter on the wrist or ankle.
