DEPARTMENT OF NEUROLOGICAL SCIENCES
DIVISION OF EDUCATION

OBERVERSHIP POLICY

In support of its educational mission, the Department of Neurological Sciences (DONS) at the University of Nebraska Medical Center (UNMC) provides a limited number of observership opportunities for qualified students. Observers are required to adhere to the policies below in order to meet institutional requirements, provide a safe environment, respect patients’ rights to privacy and confidentiality, and enhance the observer’s experience.

GUIDELINES

I. An observership is a voluntary experience that does not constitute medical education, graduate medical education, continuing medical education, or any training leading to licensure or board certification. Observers receive no academic credit for the observership, but may receive a letter of recognition or a certificate of completion for fulfillment of an observational or shadowing requirement as necessary.

II. All observers must wear a UNMC photo ID at all times while on UNMC property. The badge must be returned at the end of the rotation. There is an assessment of $25.00 for unreturned or damaged ID badges.

III. DONS does not provide housing, food, transportation, insurance, or visa sponsorship.

IV. Observers must complete all compliance requirements prior to starting their observership; including, but not limited to: showing proof of immunizations, proof of PPD within the last 12 months, and satisfactorily completing all computer-based learning modules provided by UNMC.

V. Observers must be directly supervised at all times by a designated faculty attending, physician attending, physician in training, or another representative of DONS.

VI. Observers may participate in lunch conferences and other didactic activities as appropriate.

VII. Observers must not provide medical care, conduct patient interviews, take a medical history, examine a patient, provide medical advice to a patient, or assist in any procedure.

VIII. Observers must not make entries into patient medical records. They must not print or copy any patient medical records or other materials identified with patient names or other patient information.

IX. Observers must not write orders for patients or make verbal orders for patients.
X. Observers must not bill for any service.

XI. Any violation of the above policies will result in immediate termination of the observership experience.

XII. UNMC DONS reserves the right to modify any of the above guidelines.

SCHEDULING

I. Observership slots are very limited, and it is not possible for DONS to accommodate all eligible applicants. Applicants may ask to be placed on a waiting list.

II. Because observership opportunities are so limited, DONS does not allow observers to reschedule their slot once it has been fully scheduled and confirmed. This is to ensure fairness to other deserving applicants who are also waiting for a slot.

III. Observerships are offered for one calendar month (January, February, March, etc.). It is expected that you will arrange your travel schedule to be present for the majority of the month. The program cannot schedule additional days for you before or after your agreed-upon month, as this would infringe upon other observers.

FEE

I. The observership fee must be paid in full before an observership slot can be confirmed or any preparation or scheduling begun.

II. The observership fee is non-refundable. If the observer cancels his/her observership slot, they will forfeit their payment. This is non-negotiable.

III. The fee for completing an observership with UNMC DONS is $1,000 USD.

IV. Payment must be made in the form of a check or money order. It should be made payable to the University of Nebraska Medical Center, and mailed to:
   University of Nebraska Medical Center
   Department of Neurological Sciences – Observership Program
   9884440 Nebraska Medical Center
   Omaha, NE 68198-8440
