

Achieving Data Quality & Integrity in Clinical Trials Involving High Consequence Pathogens

University of Nebraska Medical Center
Global Center for Health Security
Omaha, Nebraska

JULY 30 – AUGUST 1, 2024

**In-Person & Virtual
Options Available!**

In-Person (3-day course): <https://utmb.us/ap8>
Pre-registration Deadline: June 30, 2024

Virtual (2-day course): <https://utmb.us/ap7>
Pre-registration Deadline: July 12, 2024

During this course you will:

- Learn from & network with world-renowned faculty
- Utilize best practices for clinical trials during an outbreak involving High Consequence Pathogens (HCPs)
- Recognize & prevent potential risks to data quality
- Discuss the One Health approach for achieving optimal health outcomes
- Enhance cultural awareness involving clinical trials in geographic locations where the incidence of diseases caused by HCPs is high
