Khanmigo Teacher Tools

We're excited to introduce the seamless integration of Khanmigo Teacher Tools directly within Canvas. Khanmigo leverages Khan Academy content to simplify AI for educators and generate high-quality, trustworthy tools. It includes 20+ AI-powered tools that accelerate common tasks like writing letters of recommendation, brainstorming discussion prompts, creating individualized learning plans, and more.

By accessing Khanmigo from Canvas, educators can smoothly transition between planning, grading, and student communication without switching tabs, all within the platform you know and love.

Elevate teaching with the combined power of Canvas and Khanmigo Teacher Tools. **Available for all educators in US-based Higher Education institutions.**

Tools include:

- **Letter of Recommendation:** Quickly generate personalized letters of recommendation to support your students' goals.

- **Discussion Prompts:** Craft engaging prompts to stimulate meaningful discussions, on or off Canvas.

- **Rubric Generator:** Design clear, detailed grading rubrics to set expectations and simplify scoring.

... and more!
