### March 1, 2017
**Top Ten Issues in Patient Safety and Risk Management**

**Presenter:** Dr. Dennis Boyle, Associate Professor, University of Colorado/COPIC

**Objectives:**
1. Associate and describe different facets of communication which leads to liability claims or patient safety breaches; including EHR’s, informed consent, and radiologist clinician communication.
2. Appraise and synthesize the experience of communication and resolution programs, particularly the experience of the COPIC’s 3R’s program.
3. Recognize and evaluate certain problem areas, including high dose opioid patients, difficult patients and noncompliance.
4. Review and summarize current high risk clinical areas such as acute neurologic conditions.

### March 8, 2017
**Physicians and Community Involvement: Does Service Impact Health?**

**Presenter:** Dr. Marvin Stancil, Associate Professor, General Ob/Gyn, UNMC

**Objectives:**
1. Are we in the health professions looked upon as leaders within our communities?
2. What can I do to impact health in my community as a servant leader?
3. Do social woes affect the health of my patients and alter our outcomes?
4. Does poverty affect health and what can I do about it?
5. Open discussion and brain storming about these issues and more

### March 15, 2017
**Ectopic, Early Pregnancy Loss, or Normal Pregnancy? Evaluating First Trimester Bleeding**

**Presenter:** N. Jean Amoura, MD, MSc, Associate Professor, General Ob/Gyn, UNMC

**Objectives:**
1. Review the workup of bleeding in the first trimester.
2. Apply evidence-based principles to the diagnosis and management of ectopic pregnancy and early pregnancy loss.

### March 22, 2017
**Quality Improvement: Rates of Postpartum Depression at 6 Week Postpartum Visit**

**Presenter:** Dr. Kirstin Sholes, HOII

**Objectives:**
1. Review postpartum depression basics
2. Review tools available for postpartum depression screening
3. Review rates of screening at 6 week postpartum visit
4. Discuss ways to improve screening rates
