POST-FALL HUDDLE FACILITATOR TIPS

1. Create a safe, learning-focused environment (e.g., this is an opportunity for the front line to learn about why a patient fell – actively listen and be slow to judge)
2. Ask probing questions (e.g., ask “why?” until root causes are identified)
3. Encourage open and honest sharing of information from all huddle participants (e.g., encourage turn taking and recognize each person’s contribution)
4. Give praise and acknowledge good work (e.g., say “thank you” and “nice job” when appropriate)
5. Identify mistakes made and focus on how staff can improve in the future (e.g., acknowledge the mistake but specifically mention an action staff can take to address this issue in the future)
