  Pediatrics Writing Group
  UNMC UT 5151

- June 30 | 12PM
  Pediatrics Writing Group
  Children's Glow A

- Aug 25-26
  Pediatrics Writing Workshop
Residency Training

This is a busy and exciting time in the residency program as we wrap up the match season. We are excited to welcome all of our new interns in June.

What you may have noticed this year is that we have expanded our program to take 14 pediatric residents per year. This will allow us to explore other educational opportunities for the residents. We are trialing alternative team structures at Children's Hospital & Medical Center in order to provide quality patient care, but also expand teaching opportunities for both residents and students. We continue to look for other areas for opportunities and growth, including continuing to improve educational sessions such as noon conferences and morning reports at Children's Hospital & Medical Center and UNMC.

As you may have also heard, the ACGME has revised phase one of the common program requirements that will go into effect on July 1, 2017. The revisions focus on work hours, the learning and working environment, physician well-being (including faculty and residents) as well as patient safety, quality improvement, supervision and accountability. These changes will also allow us to modify rotations to maximize the resident learning experience, while maintaining quality of care. We are looking forward to working with the faculty to identify ways to improve the program in light of these changes.

Our pediatric and medicine-pediatrics residents will begin orientation on Wednesday, June 21st. There will be a welcome lunch at UNMC that day in the private dining rooms. We will also have a welcome picnic on Wednesday, June 28th at the Regency Lake and Tennis Club for all pediatric faculty and staff to come and meet the residents. We are looking forward to a great year!

2017 Match Results

Pediatrics

Aunum Akhter
Creighton University

Dan Boadwine
University of South
Honors Pediatrics Capstone Presentations

Senior medical students participating in the Honors Pediatrics Program will be presenting their research.

Monday, April 10, 2017
1:00-5:00 PM
Linder Reading Room (2nd floor of Michael Sorrell Center)

All are welcome to attend!
